GCIC Acquisition: Completed on September 16, 2019¹

Meaningful net asset value (“NAV”) per share accretion

Increased portfolio size and scale

Greater earnings power to support an increased dividend

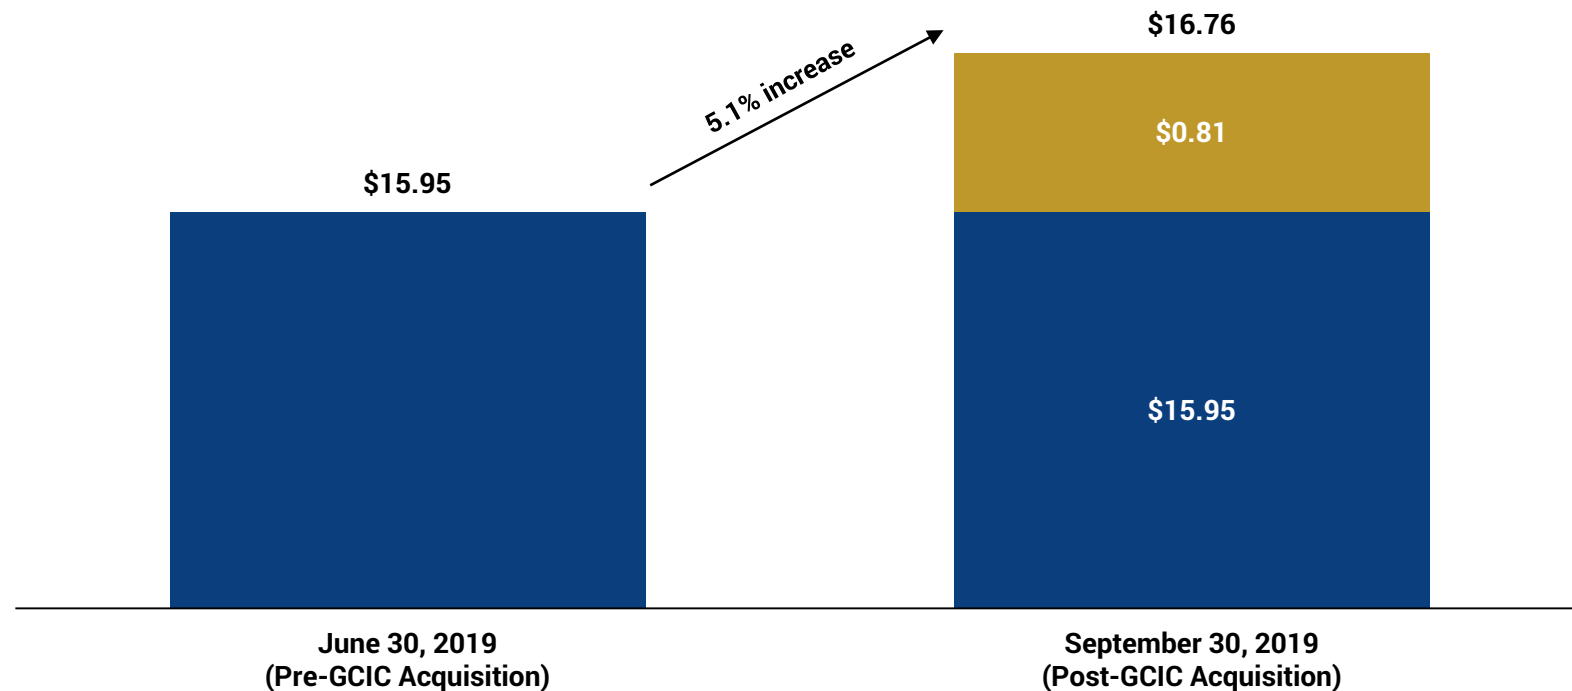

1. On September 16, 2019, Golub Capital BDC, Inc. (“we”, “us”, “our”, the “Company” or “GBDC”) completed its previously announced acquisition of Golub Capital Investment Corporation (“GCIC”) pursuant to that certain Agreement and Plan of Merger (as amended, the “Merger Agreement”), dated as of November 27, 2018, by and among the Company, GCIC, Fifth Ave Subsidiary Inc., a wholly owned subsidiary of the Company, GC Advisors, and, for certain limited purposes, Golub Capital LLC.

GCIC Acquisition: 5.1% NAV Per Share Accretion

NAV Accretion Per Share

- The acquisition was the primary driver for NAV per share accretion of \$0.81, or 5.1%, for the quarter ended September 30, 2019. This NAV accretion is more than two and a half quarters of historical regular distributions¹.

GBDC NAV Per Share

1. See slide 18 for detail on historical regular quarterly distributions.

GCIC Acquisition: Greater Portfolio Size and Diversification

While GBDC's portfolio more than doubled in size, its asset mix by investment type and obligor is consistent with pre-acquisition GBDC as over 98% of GBDC's investments at fair value as of the GCIC acquisition date overlapped with GCIC

Diversification by Asset Type

* Represents an amount less than 1.0%

1. Includes investments in Senior Loan Fund LLC ("GBDC SLF") and GCIC Senior Loan Fund LLC ("GCIC SLF," and together with GBDC SLF, the "SLFs")

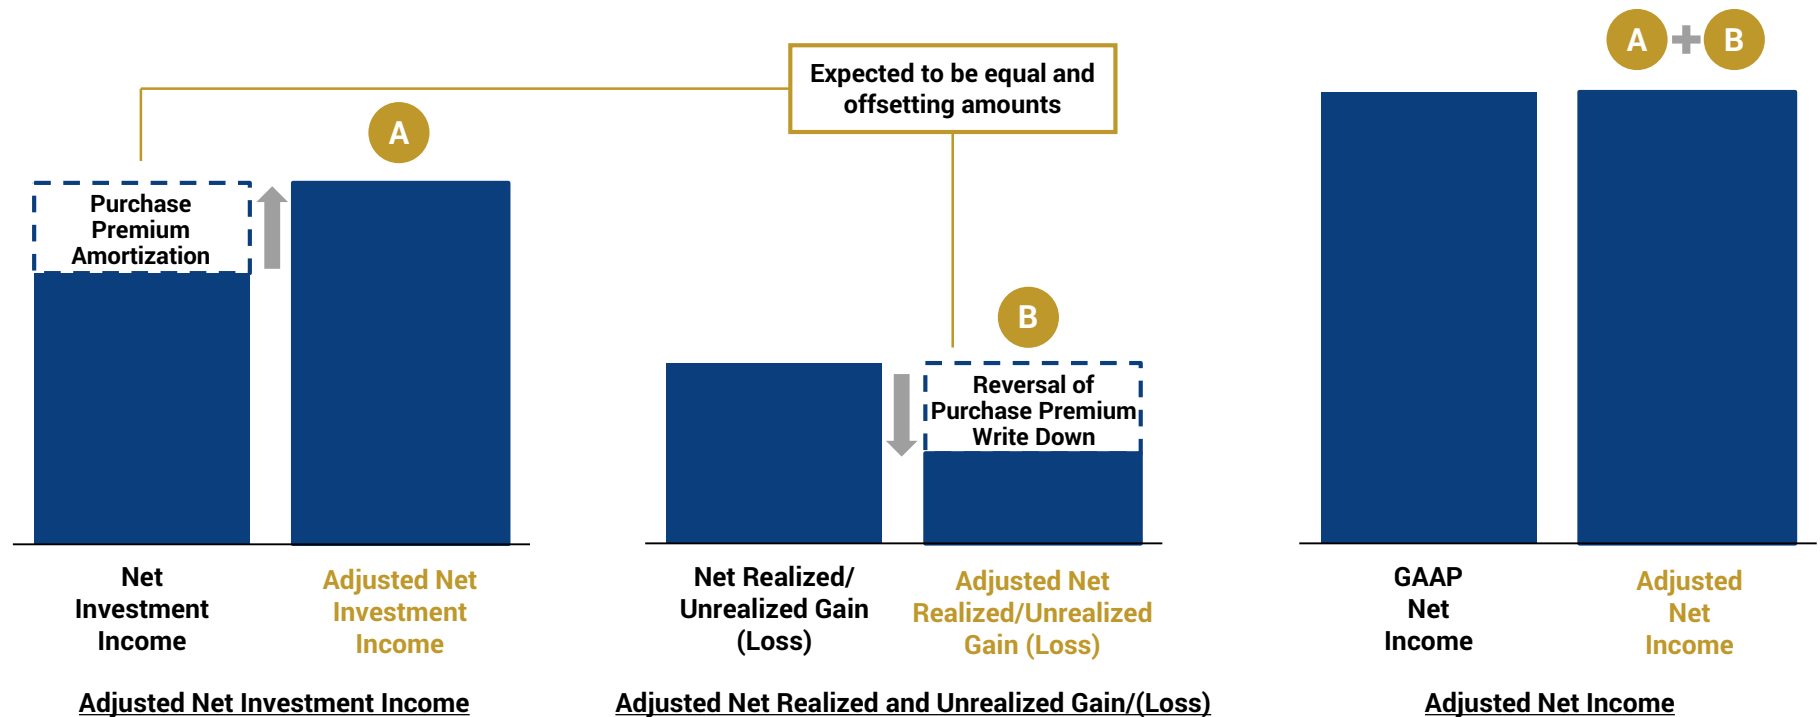

2. Junior debt is comprised of subordinated debt and second lien loans.

GCIC Acquisition: Accounting Treatment of the Purchase Premium

GCIC Acquisition: Illustrative Income Statement Impact and Supplemental Financial Measures

As a supplement to U.S. generally accepted accounting principles (“GAAP”) financial measures, the Company is providing the following non-GAAP financial measures:

Adjusted Net Investment Income
Will exclude the amortization of the purchase premium and the accrual for the capital gain incentive fee required under GAAP (including the portion of such accrual that is not payable under GBDC’s investment advisory agreement) from net investment income calculated in accordance with GAAP.

Adjusted Net Realized and Unrealized Gain/(Loss)
Will exclude the unrealized loss resulting from the purchase premium write-down and the corresponding reversal of the unrealized loss from the amortization of the premium from the determination of realized and unrealized gain/(loss) in accordance with GAAP.

Adjusted Net Income
Will calculate net income and earnings per share based on Adjusted Net Investment Income and Adjusted Net Realized and Unrealized Gain/(Loss).

After the one-time unrealized loss on the purchase premium write-down, Adjusted Net Income is expected to equal GAAP Net Income as purchase premium amortization is anticipated to offset a corresponding reversal of the unrealized loss on the GCIC loans acquired

On November 22, 2019, our Board of Directors declared a quarterly distribution of \$0.33 per share and a special distribution of \$0.13 per share, both payable on December 30, 2019 to holders of record as of December 12, 2019. The special distribution is due to taxable income exceeding distributions over the past year.

* Represents an amount less than \$0.01 per share.

1. As a supplement to GAAP financial measures, the Company is providing additional non-GAAP measures. See Endnotes on page 23 for further details on non-GAAP financial measures.

2. Includes a special distribution of \$0.12 per share in Q1 2019.

Portfolio Highlights – New Originations

New Originations Data and Net Funds Growth

- New investment commitments totaled \$130.4 million for the quarter ended September 30, 2019
- Including \$2.3 billion of investments acquired from GCIC, total investments in portfolio companies at fair value were \$4.3 billion at September 30, 2019.

* Represents an amount less than 1.0%.

1. Includes full and partial payoffs and sales. Excludes a return of capital distribution by GBDC SLF of \$25.5 million during the quarter ended September 30, 2018.

2. Net funds growth includes the impact of new investments and exits of investments as noted in the table above, as well as other variables such as net fundings on revolvers, net change in unamortized fees, net change in unrealized appreciation (depreciation), etc. and also includes the assets acquired from GCIC in the merger.

3. Excludes investments acquired in the GCIC acquisition.

4. Junior debt is comprised of subordinated debt and second lien loans.

5. Includes investments in GBDC SLF. For the quarter ended September 30, 2018, we have excluded a \$5.4MM capital contribution to GBDC SLF in determining the mix of new investments as this was offset by a subsequent return of capital distribution by GBDC SLF of \$25.5 million.

6. Weighted average interest rate on new investments is based on the contractual interest rate at the time of funding. For variable rate loans that have a London Interbank Offered Rate "LIBOR" or Prime rate option, the contractual rate is calculated using current LIBOR at the time of funding, the spread over LIBOR and the impact of any LIBOR floor. For variable rate loans that only have a Prime rate option, the contractual rate is calculated using current Prime at the time of funding, the spread over Prime and the impact of any Prime floor. For fixed rate loans, the contract rate is the stated fixed rate. Excludes exits on investments on non-accrual status.

Portfolio Highlights – Economic Analysis

Economic Analysis

1. Investment income yield is calculated as (a) the actual amount earned on earning investments, including interest and fee income and amortization of capitalized fees and discounts, divided by (b) the daily average of total earning investments at fair value. Investment income yield excludes any amortization of purchase price premium as further described in the Endnote on page 23.
2. Income yield is calculated as (a) the actual amount earned on earning investments, including interest and fee income but excluding amortization of capitalized fees and discounts, divided by (b) the daily average of total earning investments at fair value. Income yield excludes any amortization of purchase price premium as further described in the Endnote on page 23.
3. The weighted average net investment spread is calculated as (a) the investment income yield less (b) the weighted average cost of debt.
4. The weighted average cost of debt is calculated as (a) the actual amount of expenses incurred on debt obligations divided by (b) the daily average of total debt obligations.

Portfolio Highlights – Credit Quality

Credit Quality – Investment Portfolio

- Fundamental credit quality remained strong as non-accrual investments as a percentage of total debt investments at cost and fair value declined from 0.7% and 0.4%, respectively, as of June 30, 2019, to 0.5% and 0.3%, respectively, as of September 30, 2019.
- As of September 30, 2019, there were five investments on non-accrual status. During the quarter ended September 30, 2019, on an aggregate basis, one new investment was added to non-accrual status.
- Over 90% of the investments in our portfolio continue to have an Internal Performance Rating¹ of 4 or higher as of September 30, 2019.

Financial Performance Highlights

NAV Per Common Share

* As a supplement to GAAP financial measures, the Company has provided this non-GAAP financial measure. The Company believes that this non-GAAP financial measure is useful as it highlights the changes in NAV per share of common stock for each quarter excluding the impact of special distributions that were paid and shows the pro forma change to the Company's NAV per share after payment of regular distributions.

Financial Performance Highlights (Continued)

Annualized Return on Average Equity and Quarterly Distributions (Last 5 Years)

* The annualized return on average equity for the periods ended through Q3 2019 are calculated as (a) the net increase in net assets resulting from operations (i.e. net income) for the period presented divided by (b) the daily average of total net assets, then (c) compounded over one year. The annualized return on average equity for Q4 2019 is calculated as (a) adjusted net income, as defined in the Endnotes on slide 23, divided by (b) the daily average of total net assets, then (c) compounded over one year. Adjusted net income is a non-GAAP measure and the Company believes this non-GAAP measure is useful as it excludes the non-cash expense/loss from the purchase premium as further described in the Endnotes on slide 23. These returns do not represent an actual return to any investor in the Company.

Portfolio Highlights – Investments in Senior Loan Funds

1. The total income and return on investment for the Company's investment in GCIC SLF represents the period from the acquisition of GCIC SLF as part of the acquisition of GCIC on September 16, 2019 through September 30, 2019.

2. The Company's annualized return on investments in GBDC SLF is calculated by dividing total income (loss) earned on the Company's investments in GBDC SLF by the daily average of its investments in the net asset value of the GBDC SLF LLC equity interests. The Company's annualized return on investments in GCIC SLF is calculated by dividing total income (loss) earned on the Company's investments in GCIC SLF, excluding the net unrealized loss due to the purchase premium write-down to fair value as further described in the Endnote on page 23, by the daily average of its investments in the net asset value of the GCIC SLF LLC equity interests. Annualized total returns exclude the impact of management fees and incentive fees that may be charged by GC Advisors based on the Company's investments in GBDC SLF and GCIC SLF and the income from such investments.

Liquidity and Investment Capacity

Cash and Cash Equivalents

- Unrestricted cash and cash equivalents and foreign currencies totaled \$6.5 million as of September 30, 2019.
- Restricted cash, cash equivalents and foreign currencies totaled \$77.7 million as of September 30, 2019. Restricted cash is held in our securitization vehicles, SBIC subsidiaries and our revolving credit facilities and is reserved for quarterly interest payments and is also available for new investments that qualify for reinvestment by these entities.

Debt Facilities - Availability

- Revolving Credit Facilities – As of September 30, 2019, subject to leverage and borrowing base restrictions, we had approximately \$88.2 million of remaining commitments and \$42.2 million of availability, in the aggregate, on our revolving credit facilities with Deutsche Bank, Morgan Stanley and Wells Fargo. On October 11, 2019, we amended our revolving credit facility with Morgan Stanley to, among other things, increase the borrowing capacity from \$300.0 million to \$500.0 million. The other material terms of the credit facility remain unchanged.
- SBIC Debentures – As of September 30, 2019, through our SBIC licensees, we had \$18.0 million of remaining unfunded debenture commitments, of which \$18.0 million was available to be drawn, subject to customary SBA regulatory requirements.
- GC Advisors Revolvers – As of September 30, 2019, we had \$80.0 million of remaining commitments and availability on our \$80.0 million unsecured lines of credit with GC Advisors. On October 28, 2019, we amended GBDC's unsecured line of credit with GC Advisors to increase the borrowing capacity to \$100.0 million.¹ The other material terms of the credit facility remain unchanged.

1. In connection with the amendment to GBDC's GC Advisors Revolver, we terminated the \$40 million unsecured line of credit with GC Advisors that GBDC assumed as successor through its acquisition of GCIC.

Endnote – Non-GAAP Financial Measures

1. On September 16, 2019, the Company completed its acquisition of GCIC. The merger was accounted for under the asset acquisition method of accounting in accordance with Accounting Standards Codification 805-50, Business Combinations – Related Issues. Under asset acquisition accounting, where the consideration paid to GCIC's stockholders exceeded the relative fair values of the assets acquired, the premium paid by GBDC was allocated to the cost of the GCIC assets acquired by GBDC pro-rata based on their relative fair value. Immediately following the acquisition of GCIC, GBDC recorded its assets at their respective fair values and, as a result, the purchase premium allocated to the cost basis of the GCIC assets acquired was immediately recognized as unrealized depreciation on the Company's Consolidated Statement of Operations. The purchase premium allocated to investments in loan securities will amortize over the life of the loans through interest income with a corresponding reversal of the unrealized depreciation on the GCIC loans acquired through their ultimate disposition. The purchase premium allocated to investments in equity securities will not amortize over the life of the equity securities through interest income and, assuming no subsequent change to the fair value of the GCIC equity securities acquired and disposition of such equity securities at fair value, the Company will recognize a realized loss with a corresponding reversal of the unrealized depreciation upon disposition of the GCIC equity securities acquired.

As a supplement to U.S. generally accepted accounting principles ("GAAP") financial measures, the Company has provided the following non-GAAP financial measures:

- **"Adjusted net investment income"** and **"adjusted net investment income per share"** - excludes the amortization of the purchase premium and the accrual for the capital gain incentive fee required under GAAP (including the portion of such accrual that is not payable under GBDC's investment advisory agreement) from net investment income calculated in accordance with GAAP.
- **"Adjusted net realized and unrealized gain/(loss)"** and **"adjusted net realized and unrealized gain/(loss) per share"** - excludes the unrealized loss resulting from the purchase premium write-down and the corresponding reversal of the unrealized loss from the amortization of the premium from the determination of realized and unrealized gain/(loss) in accordance with GAAP.
- **"Adjusted net income"** and **"adjusted earnings per share"** – calculates net income and earnings per share based on Adjusted Net Investment Income and Adjusted Net Realized and Unrealized Gain/(Loss).

The Company believes that excluding the financial impact of the purchase premium in the above non-GAAP financial measures is useful for investors as this is a non-cash expense/loss and is one method the Company uses to measure its financial condition and results of operations. In addition, the Company believes excluding the accrual of the capital gain incentive fee in the above non-GAAP financial measures is useful as a portion of such accrual is not contractually payable under the terms of either the Company's current investment advisory agreement with GC Advisors, which was effective September 16, 2019, or its prior investment advisory agreement with GC Advisors, (each an, "Investment Advisory Agreement"). In accordance with GAAP, the Company is required to include aggregate unrealized appreciation on investments in the calculation and accrue a capital gain incentive fee on a quarterly basis as if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under either Investment Advisory Agreement. As of September 30, 2019, the cumulative capital gain incentive fee accrued by the Company in accordance with GAAP is \$0, and none was payable as a capital gain incentive fee pursuant to the current Investment Advisory Agreement as of September 30, 2019. Any payment due under the terms of the current Investment Advisory Agreement is based on the calculation at the end of each calendar year or upon termination of the Investment Advisory Agreement. The Company paid capital gain incentive fees in the amounts of \$1.2 million and \$1.6 million calculated in accordance with its prior Investment Advisory Agreement as of December 31, 2017 and 2018, respectively. The Company did not pay any capital gain incentive fee under the Investment Advisory Agreement for any period ended prior to December 31, 2017.

Although these non-GAAP financial measures are intended to enhance investors' understanding of the Company's business and performance, these non-GAAP financial measures should not be considered an alternative to GAAP. Refer to slide 8 for a reconciliation to the nearest GAAP measures.
