1. On September 16, 2019, Golub Capital BDC, Inc. ("we", "us", "our", the "Company" or "GBDC") completed the acquisition of Golub Capital Investment Corporation ("GCIC"). Purchase premium refers to the premium paid by GBDC to acquire GCIC in excess of the fair value of the assets acquired.

2. Due to the purchase accounting for the GCIC acquisition, as a supplement to U.S. generally accepted accounting principles ("GAAP") financial measures, the Company is providing additional non-GAAP measures. See the Endnotes at the end of this presentation for further description on the non-GAAP financial measures.

Note: In addition to the non-GAAP financial measures above, the Company believes providing Adjusted Net Investment Income before the accrual for capital gain incentive fee per share under GAAP, which was an amount less than \$0.01 per share for the three months ended December 31, 2021, is a useful non-GAAP financial measure as a portion of such accrual is not contractually payable under the terms of the Company's Investment Advisory Agreement. See the Endnotes at the end of this presentation for further description on the non-GAAP financial measures.

GBDC Performance Drivers

02

GBDC's Strong Earnings Were Driven by a Continuation of Themes from the Prior Quarter

Key Themes from Quarter Ended December 31, 2021

- Earnings growth across middle market private companies in Golub Capital portfolios was strong at 21.7%¹ as compared to calendar Q4 2019, reflecting an economy that is growing, even compared to strong, pre-COVID results
- Middle market deal activity was strong, which contributed to another strong origination quarter

Impact on GBDC

- GBDC portfolio companies generally continued to perform well
 - Improved internal performance ratings²
 - Low non-accruals³
 - Solid net realized and unrealized gains⁴
- Robust net originations at GBDC allowed us to increase leverage to a level consistent with our target range of 0.85x-1.25x

1. Please see the December 31, 2021 Golub Capital Middle Market Report (which is available on Golub Capital's website at www.golubcapital.com) for additional details. The Golub Capital Middle Market Report for Q4 2021 compared the October and November 2021 revenue and earnings of middle market private companies in the Golub Capital Altman Index to revenue and earnings in October and November 2019.

* Rounds to less than 1%

1. Net funds growth includes the impact of new investments and exits of investments as noted in the table above, as well as other variables such as net fundings on revolvers, net change in unamortized fees, net change in unrealized appreciation (depreciation), etc.

2. Junior debt is comprised of subordinated debt and second lien loans.

3. Weighted average interest rate on new investments is based on the contractual interest rate at the time of funding. For variable rate loans that have a London Interbank Offered Rate "LIBOR" or Prime rate option, the contractual rate is calculated using current LIBOR at the time of funding, the spread over LIBOR and the impact of any LIBOR floor. For variable rate loans that only have a Prime rate option, the contractual rate is calculated using current Prime at the time of funding, the spread over Prime and the impact of any Prime floor. For fixed rate loans, the contract rate is the stated fixed rate.

4. Weighted average spread over LIBOR of new floating rate investments is based on the contractual interest rate spread at the time of funding. For variable rate loans that have a LIBOR or Prime rate option, the LIBOR spread was used in the calculation. For variable rate loans that only have a Prime rate option, the Prime spread was used. For loans denominated in foreign currency, the spread over the applicable foreign base rate was used.

Portfolio Highlights – Investment Mix

- The portfolio continues to be focused on first lien, senior secured loans to what we believe to be healthy, resilient middle market companies backed by strong, partnership-oriented private equity sponsors.

1. Junior Debt is comprised of second lien and subordinated debt.

2. The percentage of fixed rate loans and floating rate loans is calculated using total debt investments at fair value and excludes equity investments.

3. Based on S&P 2018 industry code. The ten largest industries represented as a percentage of the portfolio at fair value are labeled. All other industry segments are each below 3.0%.

Portfolio Highlights – Economic Analysis

- The weighted average cost of debt and weighted average net investment spread presented for the quarter ended September 30, 2021 exclude \$3.6 million of accelerated capitalized debt issuance costs that resulted from the August 26, 2021 early redemption of notes issued by the 2020 Debt Securitization and the September 1, 2021 redemption of debentures issued by GC SBIC VI, LP, one of our small business investment company subsidiaries. The weighted average cost of debt and weighted average net investment spread were 3.3% and 4.4%, respectively, when including the \$3.6 million of accelerated capitalized debt issuance costs.
- Investment income yield is calculated as (a) the actual amount earned on earning investments, including interest and fee income and amortization of capitalized fees and discounts, divided by (b) the daily average of total earning investments at fair value. Investment income yield excludes any amortization of purchase price premium as further described in the Endnotes at the end of the presentation.
- Income yield is calculated as (a) the actual amount earned on earning investments, including interest and fee income but excluding amortization of capitalized fees and discounts, divided by (b) the daily average of total earning investments at fair value. Income yield excludes any amortization of purchase price premium as further described in the Endnotes at the end of the presentation.
- The weighted average net investment spread is calculated as (a) the investment income yield less (b) the weighted average cost of debt.
- The weighted average cost of debt is calculated as (a) the actual amount of expenses incurred on debt obligations divided by (b) the daily average of total debt obligations.

Portfolio Highlights – Credit Quality

- As of December 31, 2021, non-accrual investments remained low at 1.2% and 0.9% as a percentage of total investments at cost and fair value, respectively, a slight decrease from the prior quarter.
- During the quarter ended December 31, 2021, the number of non-accrual investments declined from six to five investments due to the disposition of a portfolio company investment.

1. On September 13, 2011, the Company received exemptive relief from the SEC to permit the Company to exclude the debt of its small business investment company ("SBIC") subsidiaries from its asset coverage test. As such, asset coverage and regulatory leverage exclude the Small Business Administration ("SBA") debentures of the Company's SBICs.

2. There were no SBA Debentures outstanding as of September 30, 2021 and December 31, 2021. On November 4, 2020, May 4, 2021 and September 21, 2021, SBIC IV, SBIC V, and SBIC VI, respectively, surrendered their licenses to operate as a SBIC and the program was terminated.

3. Following stockholder approval of the application of the reduced asset coverage requirements available to business development companies to the Company, the minimum asset coverage ratio applicable to the Company decreased to 150% from 200% effective February 6, 2019.

1. For the quarter ended September 30, 2021, GC Advisors irrevocably waived \$4.0 million of the base management fee calculated under the investment advisory agreement.

2. As a supplement to GAAP financial measures, the Company is providing additional non-GAAP measures. See the Endnotes at the end of this presentation for further details on non-GAAP financial measures.

Financial Performance Highlights

Quarterly Return on Equity and Quarterly Distributions (Last 5 Years)

* The quarterly return on equity for the periods up to and including the quarter ended June 30, 2019 are calculated as (a) the net increase in net assets resulting from operations (i.e., net income) for the period presented divided by (b) the daily average of total net assets during the period. The quarterly return on equity for the periods after June 30, 2019 are calculated as (a) Adjusted Net Income for the period, as defined in the Endnotes at the end of this presentation, divided by (b) the daily average of total net assets during the period. Adjusted Net Income is a non-GAAP measure and the Company believes this non-GAAP measure is useful as it excludes the non-cash expense/loss from the purchase premium as further described in the Endnotes at the end of this presentation. These returns do not represent an actual return to any investor in the Company.

Long History of Strong Shareholder Returns

Investors in GBDC's 2010 IPO have achieved a **10.0% IRR on NAV¹**

1. Internal rate of return ("IRR") on NAV is calculated using beginning of period NAV, distributions paid during the period, an incremental investment of \$2.29 per share, or the GBDC Rights Offering subscription price of \$9.17 per share divided by four (corresponding to the 1:4 issuance ratio in the GBDC Rights Offering, or the "GBDC Rights Offering Investment"), and ending period NAV, multiplied by 1.25x (corresponding to the 1:4 issuance ratio in the GBDC Rights Offering). Period beginning June 30, 2010 and ending December 31, 2021. GBDC made its initial public offering on April 15, 2010.
2. Calculated as (a) the sum of (i) NAV per share for the period presented plus (ii) cumulative regular and special distributions paid per share subsequent to the GBDC Rights Offering (b) divided by four to reflect additional shares purchased at the 1:4 issuance ratio in the GBDC Rights Offering.

Note: Amounts presented represent per share amounts for a hypothetical shareholder that purchased one share in GBDC's initial public offering ("IPO") on April 15, 2010 and subscribed for its pro rata rights through GBDC's rights offering, which closed on May 15, 2020 ("GBDC Rights Offering"). For illustrative purposes only; does not reflect the actual returns of a specific GBDC investor. Past performance does not guarantee future results.

- Unrestricted cash and cash equivalents and foreign currencies totaled \$182.7 million as of December 31, 2021.
- Restricted cash, cash equivalents and foreign currencies totaled \$118.8 million as of December 31, 2021. Restricted cash is held in our securitization vehicles and our revolving credit facilities and is reserved for quarterly interest payments and is also available for new investments that qualify for reinvestment by these entities.

Debt Facilities – Availability

- Revolving Credit Facilities – As of December 31, 2021, subject to leverage and borrowing base restrictions, we had approximately \$809.4 million of remaining commitments and \$809.4 million of availability, in the aggregate, on our revolving credit facilities with Morgan Stanley and JPMorgan.
- GC Advisors Revolver – As of December 31, 2021, we had \$100.0 million of remaining commitments and availability on our unsecured line of credit with GC Advisors.

Debt Facility Amendments and Redemptions

- On November 19, 2021, we amended our revolving credit facility with JPMorgan to, among other things, increase the accordion feature that allows us to increase the total facility size to \$1.5 billion from \$712.5 million. In addition, we entered into a series of agreements, most recently on December 17, 2021, to increase the aggregate commitments outstanding under the JPMorgan facility to \$1.1875 billion from \$475.0 million as of September 30, 2021.

Unsecured Note Issuances

- On October 13, 2021, we issued an additional \$200.0 million of 2026 Unsecured Notes, which bear a fixed interest rate of 2.500% (yield to maturity of 2.667%). The additional 2026 Unsecured Notes have the same terms as the original issuance and mature on August 24, 2026.
- On October 15, 2021, we issued an additional \$100.0 million of 2024 Unsecured Notes, which bear a fixed interest rate of 3.375% (yield to maturity of 1.809%). The additional 2024 Unsecured Notes have the same terms as the original issuance and mature on April 15, 2024.

1. Interest rate for securitizations represents the weighted average spread over 3-month LIBOR for the various tranches of issued notes, excluding tranches retained by the Company. The weighted average interest rate for the GCIC 2018 Debt Securitization excludes a \$38.5 million note that has a fixed interest rate of 2.50%. For bank facilities, the interest rate represents the interest rate as stated in the applicable credit agreement.
2. The interest rate on the JPMorgan Credit Facility ranges from 1 month LIBOR + 1.75% to 1 month LIBOR + 1.875%. The rate displayed corresponds to the interest rate incurred on the most recent borrowing.

A

Endnotes – Non-GAAP Financial Measures

1. On September 16, 2019, the Company completed its acquisition of GCIC. The merger was accounted for under the asset acquisition method of accounting in accordance with Accounting Standards Codification (“ASC”) 805-50, Business Combinations – Related Issues. Under asset acquisition accounting, where the consideration paid to GCIC’s stockholders exceeded the relative fair values of the assets acquired, the premium paid by GBDC was allocated to the cost of the GCIC assets acquired by GBDC pro-rata based on their relative fair value. Immediately following the acquisition of GCIC, GBDC recorded its assets at their respective fair values and, as a result, the purchase premium allocated to the cost basis of the GCIC assets acquired was immediately recognized as unrealized depreciation on the Company’s Consolidated Statement of Operations. The purchase premium allocated to investments in loan securities will amortize over the life of the loans through interest income with a corresponding reversal of the unrealized depreciation on the GCIC loans acquired through their ultimate disposition. The purchase premium allocated to investments in equity securities will not amortize over the life of the equity securities through interest income and, assuming no subsequent change to the fair value of the GCIC equity securities acquired and disposition of such equity securities at fair value, the Company will recognize a realized loss with a corresponding reversal of the unrealized depreciation upon disposition of the GCIC equity securities acquired.

As a supplement to U.S. generally accepted accounting principles (“GAAP”) financial measures, the Company has provided the following non-GAAP financial measures:

- **“Adjusted Net Investment Income”** and **“Adjusted Net Investment Income Per Share”** - excludes the amortization of the purchase premium from net investment income calculated in accordance with GAAP.
- **“Adjusted Net Realized and Unrealized Gain/(Loss)”** and **“Adjusted Net Realized and Unrealized Gain/(Loss) Per Share”** - excludes the unrealized loss resulting from the purchase premium write-down and the corresponding reversal of the unrealized loss resulting from the amortization of the premium on loans or from the sale of equity investments from the determination of realized and unrealized gain/(loss) in accordance with GAAP.
- **“Adjusted Net Income”** and **“Adjusted Earnings/(Loss) Per Share”** – calculates net income and earnings per share based on Adjusted Net Investment Income and Adjusted Net Realized and Unrealized Gain/(Loss).

The Company believes that excluding the financial impact of the purchase premium in the above non-GAAP financial measures is useful for investors as this is a non-cash expense/loss and is one method the Company uses to measure its financial condition and results of operations.

In addition to the non-GAAP financial measures above, the Company has provided the non-GAAP financial measure **“Adjusted Net Investment Income Before Accrual for Capital Gain Incentive Fee”** and **“Adjusted Net Investment Income Before Accrual for Capital Gain Incentive Fee Per Share”**, which excludes the accrual for the capital gain incentive fee required under GAAP (including the portion of such accrual that is not payable under GBDC’s investment advisory agreement) from Adjusted Net Investment Income. The Company believes excluding the accrual of the capital gain incentive fee as a non-GAAP financial measure is useful as a portion of such accrual is not contractually payable under the terms of either the Company’s current investment advisory agreement with GC Advisors, which was effective September 16, 2019, or its prior investment advisory agreement with GC Advisors, (each an, “Investment Advisory Agreement”). In accordance with GAAP, the Company is required to include aggregate unrealized appreciation on investments in the calculation and accrue a capital gain incentive fee on a quarterly basis as if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under either Investment Advisory Agreement. As of December 31, 2021, the cumulative capital gain incentive fee accrued by the Company in accordance with GAAP is \$0.5 million, none of which was payable as a capital gain incentive fee pursuant to the current Investment Advisory Agreement as of December 31, 2021. Any payment due under the terms of the current Investment Advisory Agreement is based on the calculation at the end of each calendar year or upon termination of the Investment Advisory Agreement. The Company paid capital gain incentive fees in the amounts of \$1.2 million and \$1.6 million calculated in accordance with its prior Investment Advisory Agreement as of December 31, 2017 and 2018, respectively. The Company did not pay any capital gain incentive fee under the Investment Advisory Agreement for any period ended prior to December 31, 2017.

Although these non-GAAP financial measures are intended to enhance investors’ understanding of the Company’s business and performance, these non-GAAP financial measures should not be considered an alternative to GAAP. Refer to slide ‘Summary of Quarterly Results’ for a reconciliation to the nearest GAAP measures.

2. Purchase premium refers to the premium paid by GBDC to acquire GCIC in excess of the fair value of the assets acquired.
