- Private equity sponsor-backed companies with \$10–100 million of EBITDA
- Recession-resilient industries with particular expertise in software, healthcare, specialty consumer and financial services
- Seek to generate consistent net returns and current income by maintaining low defaults and credit losses

1. "Capital under management" is a gross measure of invested capital including leverage. As of April 1, 2025.

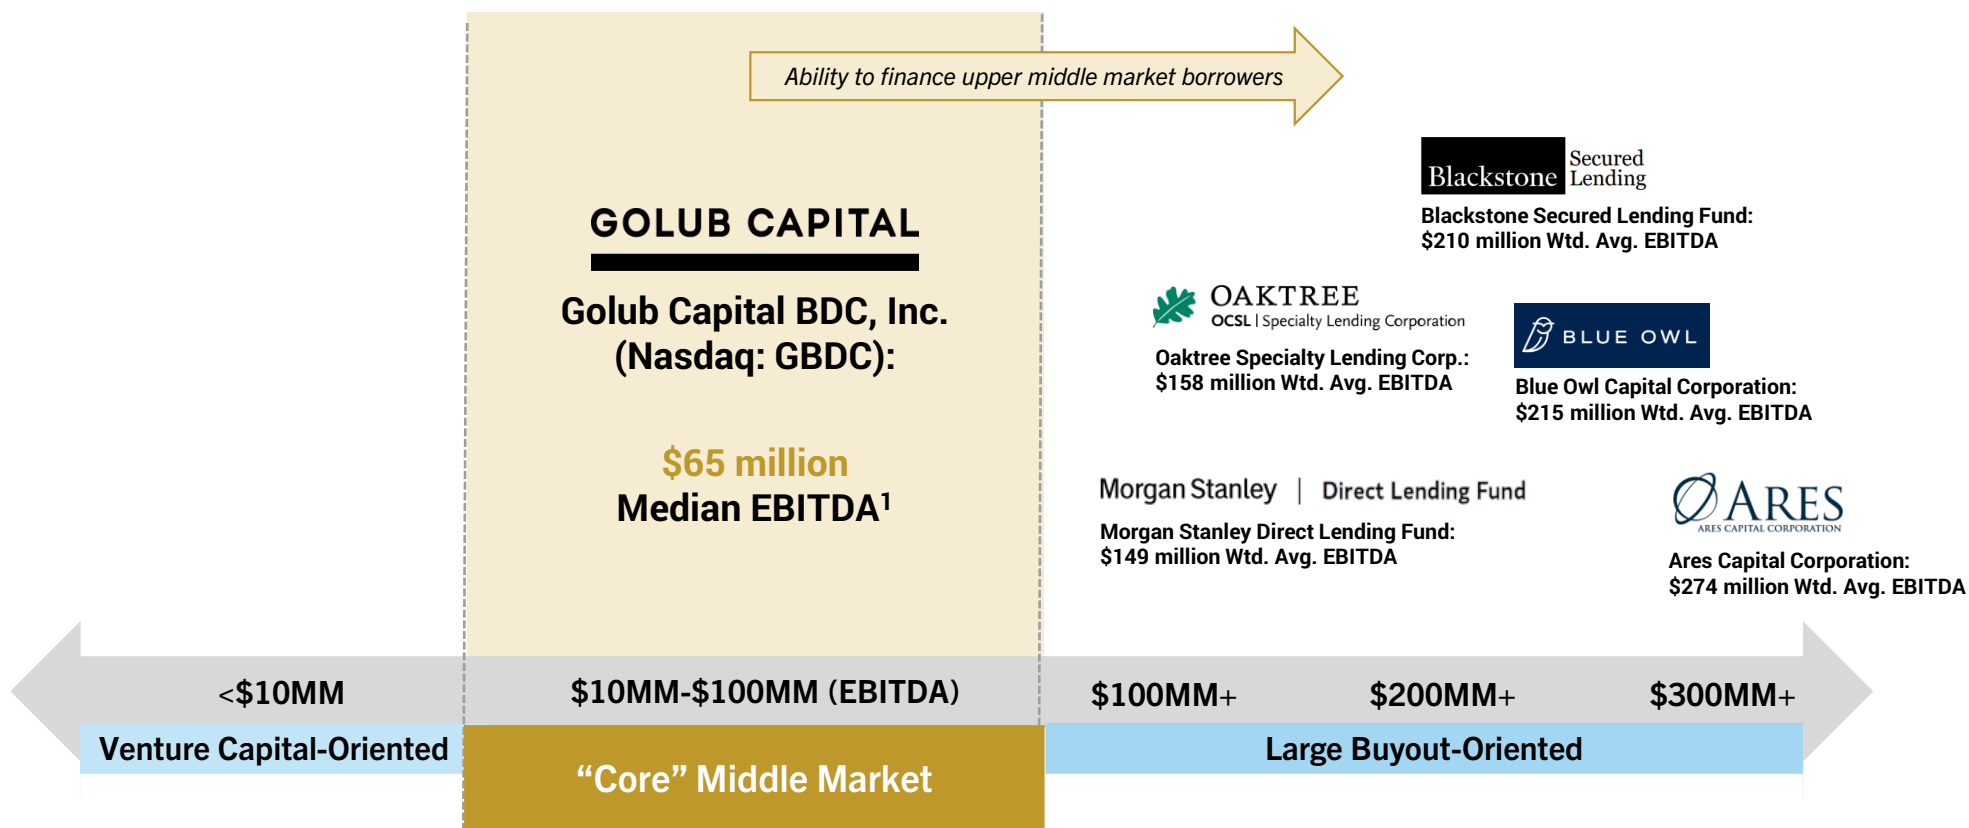

2. Multi-year winner of "Senior Lender of the Year, Americas" (2015, 2016, 2017, 2019, 2020, 2023) and "Lender of the Year, Americas" (2014, 2015, 2016, 2018, 2021, 2022, 2023) from Private Debt Investor ("PDI"). Based on the number of votes cast on PDI's website. Peer group consisted of firms that applied or were nominated. Winner of "Senior Lender of the Decade, Americas" (2023) and "Lender of the Decade, Americas" (2023) from PDI; these awards were published in PDI's 'The Decade' issue, released in June 2023. Selections were made based on which firms won the most PDI awards in each category since 2013. In order to use the awards and recognitions received from PDI in Golub Capital materials as well as to be identified as an award recipient on PDI's website and materials used in association with certain of its awards, Golub Capital has provided de minimis compensation to PDI.

3. As of March 31, 2025. Golub Capital has been a Top 3 U.S. Middle Market Bookrunner each year from 2008–Q1 2025 for senior secured loans of up to \$500MM for leveraged buyouts, ranked by number of deals, based on London Stock Exchange Group ("LSEG") Data & Analytics and Golub Capital internal data. Market participants submit transaction data voluntarily to LSEG Data & Analytics. As a result, the data referenced herein may not reflect all deals entered into during the time periods indicated.

Differentiated Core Middle Market Focus v. Peers

Golub Capital's lending focus spans from the lower middle market to the upper middle market

1. As of March 31, 2025. The portfolio median EBITDA (defined as earnings before interest, taxes, depreciation and amortization) is based on our portfolio of debt investments and excludes (i) portfolio companies with negative or de minimis EBITDA, (ii) investments designated as recurring revenue and broadly syndicated loans and (iii) portfolio companies with any loans on non-accrual status.

Broad Sponsor Finance Platform

410+

Sponsor Relationships¹

280+

Repeat Sponsor Relationships

\$25MM–1BN

Hold Size Range

Golub Capital Advantages for Private Equity Sponsors

- Reliability
- Product breadth and flexibility
- Hold size capabilities with the ability to expand meaningfully over time
- Industry expertise
- Speed of execution

Distinctive and Compelling Financing Solutions

- Traditional first lien senior secured loans
- One-stop first lien senior secured loans
- Delayed draw term loans and revolvers
- Flexible debt for high growth companies
- Capital markets capabilities

Origination Volume with Repeat Sponsors^{2,3}

% of retained commitments

Middle Market Origination Volume^{2,3}

\$ billion of retained commitments

1. Represents sponsor relationships formed by Golub Capital since Firm inception.

2. Origination volume refers to the dollar value of new debt financing commitments to middle market companies. Repeat sponsors are private equity firms that had previously completed a financing transaction with Golub Capital.

3. Charts show last 10 years of data.

Source: Golub Capital. As of March 31, 2025.

Attractive Opportunities From Existing Borrowers

As the incumbent lender to over 370 middle market companies, we believe we are well positioned to capture attractive deal flow from our existing borrowers

- We believe financings with existing borrowers generally have attractive risk-return characteristics; we believe our knowledge of the company, management team and sponsor gives us an edge in evaluating risk
- We believe that incumbencies help us to be disciplined in slow M&A environments, as our existing portfolio acts as a source of add-on opportunities that are relatively independent of new deal M&A activity

Origination Volume with Repeat Borrowers¹
% of retained commitments

Growing with our Existing Borrowers
\$ MM debt facility size, borrower case studies²

1. Origination volume refers to the dollar value of new debt financing commitments to middle market companies. Repeat borrowers are obligors that had previously completed a financing with Golub Capital.
 2. Based on cumulative total debt facility size including incremental debt transactions. For illustrative purposes only. Not all borrowers/transactions will have these characteristics.
 Source: Golub Capital. As of March 31, 2025.

Our Capabilities Enable Us To Lead Approximately 90% of Our Deals

We believe acting as a lead lender provides distinct advantages relative to a participating role

Advantages

- Lead lenders typically control pricing, deal structure and terms
- Lead lenders generally receive higher deal fees
- Lead lenders typically have more time and more access to management during diligence prior to investing
- Lead lenders typically have better portfolio monitoring capabilities
 - Direct access to sponsor and obligor
 - First to receive financial and covenant packages
 - Can often detect and resolve performance issues prior to default
 - Control the workout process
- Lead lenders have the advantages of incumbencies
 - Typically the “Go to” lender for add-on transactions, refinancings and financing for new owners

Origination Volume with Golub Capital as a Lead Lender* % of retained commitments

* Origination volume refers to the dollar value of new debt financing commitments to middle market companies.
Note: Past performance does not guarantee future results.

GOLUB CAPITAL

GBDC's Affiliation with Golub Capital Positions it for Success in the Public BDC Sector

GBDC's affiliation with Golub Capital has resulted in a risk-adjusted return profile that we believe is differentiated in the public BDC sector

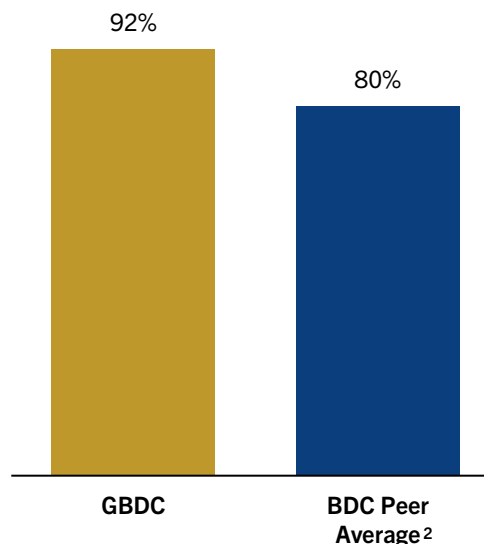

1. Attractive Dividend Yield Profile

Dividend Yield on NAV
Annualized quarterly figures

2. 1st Lien Oriented Portfolio

1st Lien Debt as a % of Portfolio
% of portfolio at fair value

3. Long-Term Track Record of Low Credit Losses

Realized & Unrealized Net Gain/(Loss) Rate Since GBDC Inception
Annualized, % of portfolio at cost

1. Based on an annualized regular quarterly distribution of \$0.39 per share and GBDC's net asset value ("NAV") per share as of March 31, 2025 (\$15.04). Distributions are not guaranteed. There can be no assurance that a change in market conditions or other factors will not result in a change in GBDC's distribution rate or that the rate will be sustainable in the future.

2. The BDC peer group utilized by Golub Capital is the 15 largest publicly traded, externally managed BDCs by total balance sheet assets, excluding GBDC, as of March 31, 2025. Golub Capital has selected this group of BDCs for comparison because the Firm believes that the group represents companies that have a similar structure and size as GBDC.

3. Represents the geometric average of quarterly gain/(loss) rates since inception (December 31, 2009), where quarterly gain/(loss) rate represents (i) the sum of unrealized appreciation/(depreciation) and realized gain/(loss) on investments excluding the impact of foreign currency translation and the impact of unrealized appreciation/(depreciation) on investments from the Golub Capital Investment Corporation ("GCIC") purchase premium and the Golub Capital BDC 3, Inc. ("GBDC 3") purchase premium, divided by (ii) the investment portfolio value at cost at the end of the respective measurement period.

Note: Data as of March 31, 2025.

GOLUB CAPITAL

GBDC Business Highlights

02

FY 2025 Q2 Earnings Review (Quarter Ended 3/31/25)

Earnings Summary

- Profitability remained solid with adjusted net investment income per share of \$0.39, or an adjusted NII ROE of 10.4%^{1,2}
- Key profitability drivers:
 - Continued strong portfolio company performance
 - High base rates
 - Attractive portfolio spreads and improving new origination spreads relative to prior quarters
 - Improved borrowing costs following the execution of certain funding structure initiatives (i.e. retiring certain legacy GBDC 3 debt facilities and securitizations, and issuing the 2024 debt securitization)
 - Leading fee structure in place (i) base management fee of 1.0% , and (ii) incentive fee rate of 15.0%
- Adjusted earnings/(loss) per share of \$0.30, or an Adjusted ROE of 8.0%^{1,3}
- Adjusted net realized/unrealized gain/(loss) per share of (\$0.09)¹
 - Unrealized losses in the quarter from select mark-to-market and fair value writedowns
 - Realized losses related to the restructuring of two portfolio companies (both on non-accrual status as of December 31, 2024)

Portfolio & Credit Quality

- Investment portfolio decreased modestly to \$8.6 billion at fair value with \$390.3 million in exits/sales and \$298.9 million in new investment commitments (\$159.5 million were funded at close)
 - Net funds decrease of \$64.0 million, a 0.7% decrease in portfolio size from December 31, 2024
- Continued strong portfolio company performance with nearly 90% of the total investment portfolio having internal performance ratings of '4' or '5'⁴
- Non-accrual investments remain low at 0.7% as a percentage of total investments at fair value

Balance Sheet

- Net asset value of \$15.04 per share, a decrease of \$0.09 per share from \$15.13 as of December 31, 2024
 - Accretive capital management in response to market volatility through (i) the issuance of 2.4 million shares of our common stock, at a premium to NAV, and (ii) during the period March 1, 2025 through May 5, 2025 repurchased approximately 2.5 million shares of our common stock, at a discount to NAV (aggregate price of \$14.00 per share)
- GAAP debt-to-equity ratio, net increased to 1.16x⁵ (1.17x average for the quarter); 44% of debt funding is unsecured debt, and 80%⁶ floating rate debt funding
- Subsequent to quarter end, amended and extended the JPM Credit Facility, updating the margin to a range of 1.525% to 1.775% based upon applicable borrowing base coverage, consistent with lowest levels amongst BDC peers⁷
- Total available liquidity of \$1.2 billion

Distributions

- Declared quarterly base distribution of \$0.39 per share⁸ for FY 2025 Q2; quarterly base distribution coverage remains strong at ~100%⁹
- 10.4% dividend yield on March 31, 2025 NAV

Note: As of March 31, 2025. This page is accompanied by the footnotes on the page titled *Endnotes* at the end of this presentation, which are an integral part of this presentation.

GBDC's Investment Portfolio is Conservatively Positioned

Portfolio Composition by Seniority

Predominantly first lien, first out senior secured loan portfolio mitigates credit risk

Portfolio Composition by Interest Rate Type on Loans²

Preponderance of portfolio is floating rate

Internal Performance Ratings³

Internal performance ratings highlight our focus on what we view as resilient companies and industries

Diversification by Industry⁴

Highly granular and diversified portfolio limits the potential impact of idiosyncratic risks

Note: 41 industries below 3%

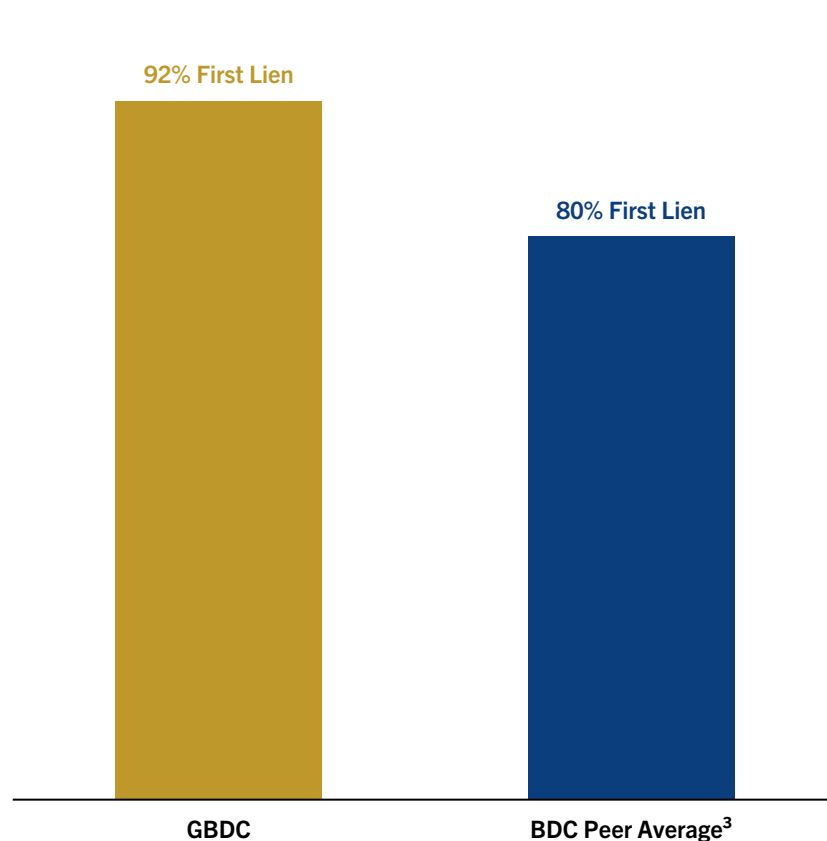

Note: As of March 31, 2025. This page is accompanied by the footnotes on the page titled *Endnotes* at the end of this presentation, which are an integral part of this presentation.

Higher First Lien Composition, Greater Portfolio Diversity Than Peer Averages

Portfolio Composition by Seniority¹

GBDC's portfolio is more conservatively positioned than the BDC peer average

Diversification by Obligor

GBDC's portfolio is almost twice as diversified by obligor as the BDC peer average

1. Based on fair value of investments as of March 31, 2025.

2. Calculated based on each BDC's total investment portfolio size and average portfolio company investment size at fair value as presented in SEC filings.

3. The BDC peer group utilized by Golub Capital is the 15 largest publicly traded, externally managed BDCs by total balance sheet assets, excluding GBDC, as of March 31, 2025. Golub Capital has selected this group of BDCs for comparison because the Firm believes that the group represents companies that have a similar structure and size as GBDC.

Golub Capital's Portfolio Company Fundamentals Outpace the Average Private Credit Borrower

Year-over-Year LTM EBITDA Growth (%)

Golub Capital's portfolio companies have demonstrated stronger growth relative to the average private credit borrower¹

LTM EBITDA Margin (%)

Golub Capital's portfolio companies have demonstrated greater profitability relative to the average private credit borrower¹

1. Private Credit Market Benchmark figures are as of March 31, 2025 and were compiled by the Lincoln Valuations & Opinions Group. Year-over-year LTM EBITDA growth data represents an average of the last four quarters. ©2025 Lincoln Partners Advisors LLC. All rights reserved. Used with permission. Third-party use is at user's own risk.
2. Represents the Golub Capital Altman Index ("GCAI"), which measures the median earnings growth of approximately 110-150 privately owned companies in the Golub Capital loan portfolio for the first two months of each calendar quarter. The GCAI is produced by Golub Capital in collaboration with credit expert Dr. Edward I. Altman. For more information, including a description of the methodology used to create the report, please visit golubcapital.com/middle-market-report. Year-over-year LTM EBITDA growth data represents an average of the last four quarters. Data in this slide relates to Golub Capital at a firm level, and not GBDC.
3. Represents the weighted average Golub Capital middle market EBITDA margin, where middle market is defined based on the Golub Capital business through which the transaction is monitored. EBITDA margin is calculated as LTM EBITDA divided by LTM revenue based on the latest portfolio company financials as of December 31, 2024, weighted by the fair value of the firmwide middle market portfolio as of March 31, 2025. Excludes (i) portfolio companies with negative or de minimis EBITDA, (ii) investments designated as recurring revenue-based loans, broadly syndicated loans or equity, (iii) portfolio companies with any loans on non-accrual status or Defaulted credits and (iv) portfolio companies with LTM financial data unavailable. A loan is classified as a Default if it falls within one of the three scenarios: (a) an uncured payment default with respect to principal or interest (b) if the loan has been restructured with a full or partial debt-for-equity exchange, or (c) if a loan is amended such that (i) cash interest is reduced to a rate less than the applicable base rate + 1% for at least two consecutive quarters and (ii) the loan had an Internal Performance Rating of 1 or 2. Scenario C became effective January 1, 2018.

GOLUB CAPITAL

GBDC's Portfolio Continues to Deliver Strong Relative Credit Performance

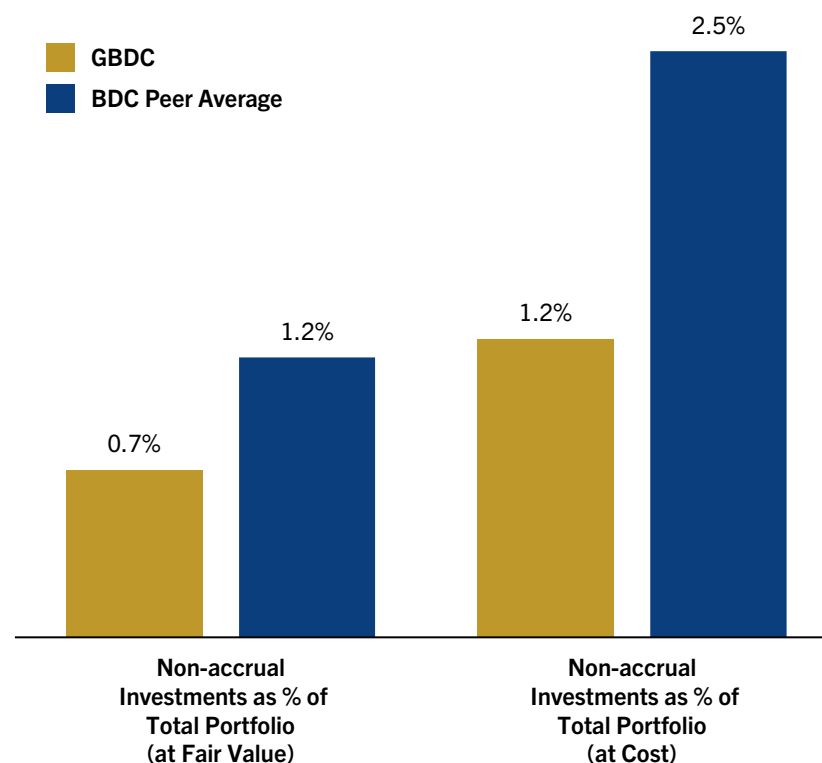

% of Investment Income from PIK Interest v. BDC Peers

GBDC's total investment income is less reliant on portfolio companies that are meeting interest obligations through PIK

Non-Accrual Rate v. BDC Peers

GBDC's portfolio is less exposed to portfolio companies currently unable to service their debt

Note: As of March 31, 2025. The BDC peer group utilized by Golub Capital is the 15 largest publicly traded, externally managed BDCs by total balance sheet assets, excluding GBDC, as of March 31, 2025. Golub Capital has selected this group of BDCs for comparison because the Firm believes that the group represents companies that have a similar structure and size as GBDC.

GBDC's Cycle-Tested Underwriting Performance Ranks Top Amongst BDCs¹

Raymond James' Historical Underwriting Score

Cumulative Default Rates by Vintage v. Public BDC Average for CQ4 2003 through CQ3 2024

*"We view non-accruals alone as a snapshot indicator of relatively recent underwriting performance, and one sensitive to portfolio vintage exposure - young BDCs are at a major advantage on that metric. We compare cumulative default rates to industry average on a vintage by vintage basis to get a clearer picture. **Top-3 underwriters in this framework (under coverage): GBDC, SLRC, TSLX.**"*

- Raymond James & Associates (December 23, 2024)²

*"Both GBDC and its parent company Golub Capital have demonstrated a **long track record of stellar credit performance**, which we believe reflects the company's portfolio granularity and underwriting strength."*

- Moody's Investors Service (January 23, 2025)²

1. According to the above chart based on the industry report published by Raymond James & Associates on December 23, 2024, "BDC Underwriting Performance: The Good, The Bad, and the Complicated".

2. These statements are excerpts from a research report by Raymond James & Associates and a credit ratings report by Moody's Investors Service, Inc. for Golub Capital. They do not necessarily summarize the reports in their entirety and should not be relied on as the basis for an investment decision. Golub Capital has existing arrangements with Moody's Investors Services to perform credit rating services for which it receives customary compensation. Emphasis added to quoted text.

Note: Data presented is one metric to measure underwriting performance. GBDC's performance may not be ranked the same using other metrics or frameworks or other time periods.

Note: All information on underwriting performance designed, calculated and published by Raymond James & Associates and presented herein is the property of Raymond James & Associates. Golub Capital makes no representations about the accuracy or appropriateness of the data reported by such third-party data sources and Raymond James & Associates has not endorsed the contents of this presentation.

GOLUB CAPITAL

NAV Accretion from Affiliated BDC Mergers

Mergers between GBDC and Golub Capital-affiliated private-to-public BDCs have represented a highly effective capital raising alternative for GBDC. GBDC's acquisition by merger of GCIC in 2019 and GBDC 3 in 2024 each resulted in NAV accretion for GBDC investors

GBDC Merger with GCIC

(Effective September 16, 2019)

GBDC Stock Price at Merger Close: \$18.74 (117% of NAV)

GBDC Shares Issued in Merger: 71.8mm

Gross Issuance Value from Merger: 71.8mm x \$18.74 = \$1,345.2mm

Unrealized Loss from Writedown of GCIC Purchase Premium¹: \$104.1mm

Pro Forma GBDC NAV Post-Merger¹: \$968.2mm (as of 6/30/19) + (\$1,345.2mm - \$104.1mm) = \$2,209.3mm

GBDC Shares Post-Merger: 60.7mm (as of 8/7/19) + 71.8mm = 132.5mm

Pro Forma GBDC NAV Per Share Post-Merger: \$2,209.3mm / 132.5mm = \$16.67

GBDC Merger with GBDC 3

(Effective June 3, 2024)

GBDC Stock Price at Merger Close: \$16.57 (110% of NAV)

GBDC Shares Issued in Merger: 92.1mm

Gross Issuance Value from Merger: 92.1mm x \$16.57 = \$1,526.4mm

Unrealized Loss from Writedown of GBDC 3 Purchase Premium¹: \$51.7mm

Pro Forma GBDC NAV Post-Merger¹: \$2,593.6mm (as of 3/31/24) + (\$1,526.4mm - \$51.7mm) = \$4,068.3mm

GBDC Shares Post-Merger: 171.5mm (as of 5/6/24) + 92.1mm = 263.6mm

Pro Forma GBDC NAV Per Share Post-Merger: \$4,068.3mm / 263.6mm = \$15.43

1. Under asset acquisition accounting, where the consideration paid to GCIC's and GBDC 3's stockholders, as applicable, exceeded the relative fair values of the assets acquired, the premium paid by GBDC is allocated to the cost of GCIC and GBDC 3 assets acquired by GBDC pro-rata based on their relative fair value. Immediately following each of the mergers, GBDC records its assets at fair value and, as a result, the purchase premium allocated to the cost basis of the assets of GCIC and GBDC 3 acquired in the respective mergers, as applicable, was immediately recognized as unrealized depreciation. The unrealized depreciation resulting from asset acquisition accounting is shown as a reduction in the Pro Forma GBDC NAV Post-Merger and the Pro Forma GBDC NAV Per Share Post-Merger above.

GOLUB CAPITAL

Key Takeaways – GBDC Returns and Value Proposition

04

GBDC's Return Drivers

We believe GBDC is positioned to deliver one of the most attractive risk-adjusted return profiles in the public BDC sector

1.

Attractive Asset Yields w/ 1st Lien Focus

- 1st lien focused investment portfolio, 99% floating rate portfolio, sponsor-backed portfolio companies
- Lower non-accrual balances results in higher earning asset balances
- Lower reliance on PIK interest income
- Lower reliance on non-recurring dividend and fee income

2.

Prudent Use of Leverage and Funding Cost Advantages

- 0.85x – 1.25x target debt-to-equity
- Diversified funding sources with one of the lowest overall borrowing costs amongst BDC Peers²
- Differentiated investment grade ratings profile supports access to unsecured debt markets (Baa2 (Stable) / BBB- (Stable) / BBB (Stable))

3.

Lower Investment Advisory Fees

- Gold standard in public BDC fee structures

4.

Active Operating Expense Management

- Leverage scale benefits across the Golub Capital BDC platform to lower operating expenses

(Figures annualized)	Quarter Ended March 31, 2025	
	GBDC ¹	BDC Peers Median ²
1st Lien Debt as a % of Total Portfolio	92%	81%
Cash Interest Income	8.7%	7.9%
(+) PIK Interest Income	0.6%	0.7%
(+) Dividend, Fee, & Other Income	0.5%	1.2%
Asset Yield	9.7%	9.8%
(-) Cost of Funds	(5.7%)	(5.8%)
Unlevered Spread	4.1%	4.0%
(x) Liabilities / Equity	1.23x	1.22x
Levered Spread	14.7%	14.6%
(-) Management Fees	(2.2%)	(3.0%)
(-) Incentive Fees	(1.8%)	(2.2%)
(+) Management and Incentive Fee Waivers	0.0%	0.0%
(-) Operating Expenses	(0.5%)	(0.7%)
(-) Taxes	(0.0%)	(0.2%)
Net Investment Income Yield	10.2%	8.4%

GOLUB CAPITAL

GBDC's Long History of Strong Shareholder Returns

Investors in GBDC's 2010 IPO have achieved a **9.6%** IRR on NAV¹

As of March 31, 2025

1. The 9.6% internal rate of return ("IRR") on NAV is calculated using beginning of period NAV, distributions paid during the period and ending period NAV. Period beginning June 30, 2010 and ending March 31, 2025. GBDC made its initial public offering on April 15, 2010. GBDC's 1-, 5- and 10-Year IRRs (net of fees and expenses) are 12.4%, 10.5% and 9.1%, respectively.

Note: Amounts presented represent per share amounts for a hypothetical shareholder that purchased one share in GBDC's initial public offering ("IPO") on April 15, 2010. For illustrative purposes only; does not reflect the actual returns of a specific GBDC investor. Past performance does not guarantee future results.

GOLUB CAPITAL

GBDC's Value Proposition

GBDC is a premier BDC that primarily invests in first lien senior secured loans to middle market companies sponsored by private equity firms

Golub Capital Affiliation

- GBDC is managed by an affiliate of Golub Capital, an industry-leading lender to U.S. middle market companies with over **\$75 billion** in capital under management¹
- Long-term track record benefits from low defaults and credit losses over multiple market cycles
- **30+ year** track record with **\$200B+** in loans originated

High-Quality Portfolio

- **\$8.6B** investment portfolio focused on **first lien, senior secured loans** to recession resistant U.S. middle market companies backed by experienced private equity firms
- Diversified portfolio with **393** unique portfolio companies and average investment size of **0.3%**
- **0.7%** non-accrual rate, well below BDC sector average²

Credit Track Record

- Long-term track record of generating net investment gains with lower relative volatility
- **11bps** realized and unrealized **net gain rate** since inception

Structural Advantages

- Industry-leading investment advisory fee structure
- Low-cost, diverse and long-term debt financing
- Prudent operating expense management
- High degree of Golub Capital alignment with strong insider ownership of GBDC shares outstanding (~7% **currently**) and a \$200 million unsecured revolver **provided by GC Advisors** at below market interest rates

Attractive Historical Returns

- **9.6%** annualized IRR on NAV since 2010 IPO
- **10.4%** dividend yield on NAV³
- Performed in line with broad-based equity market indices while delivering significant outperformance relative to relevant leveraged loan and bank market indices

Note: As of March 31, 2025. This page is accompanied by the footnotes on the page titled *Endnotes* at the end of this presentation, which are an integral part of this presentation.

Appendix

05

The Sponsor Advantage

We believe lending to sponsor-backed companies helps us select better credits, maintain better portfolio performance and achieve better problem resolution than lending to non-sponsored companies

Credit Selection

- Sponsors specialize in creating equity value and implementing credit-enhancing strategies
- Sponsors filter for quality and tend to be highly selective
- Sponsor-backed deals have lower historical default rates*

Portfolio Performance

- Aligned, motivated ownership
- Managerial and operational resources help avoid downside scenarios

Problem Resolution

- Access to operating partners with turnaround expertise
- Capacity to change management in underperforming companies
- Ability to invest additional equity to overcome temporary setbacks

* Based on Golub Capital internal analysis of data from PitchBook's Leveraged Commentary and Data (PitchBook LCD). For the period from January 1, 2004 through March 31, 2025, the average annual default rate of broadly syndicated loans tracked in the PitchBook LCD database was 1.7% for loans issued to sponsor-backed companies and 2.3% for loans issued to non-sponsored companies. The default rate is calculated on a trailing twelve-month basis, based on principal outstanding. Golub Capital makes no representations or warranties about the accuracy or appropriateness of third-party data sources used in this analysis. All third-party data sources are the property of their respective owners and such owners have not endorsed the contents of this presentation. There is no guarantee that future investments will maintain historical default rates.

Note: Not all sponsored deals will have all of these characteristics. Past performance does not guarantee future results.

Leading Provider of One-Stop Loans and Buy-and-Hold Solutions

One-stop loans and buy-and-hold solutions provide a win-win for investors and sponsors

Win-Win of the One-Stop

- For investors
 - First lien, first-out senior secured debt
 - Yield premium to traditional senior debt¹
 - Better protection than junior debt
- For sponsors
 - Greater ease of execution
 - One class of debt; no intercreditor complexities
 - Lower cost of debt over time

Win-Win of the Buy-and-Hold Solution

- For investors
 - Alignment of interests with manager
 - Advantages of leading transactions²
 - Well positioned for repeat business³
- For sponsors
 - Greater certainty of closing
 - No flex; no syndication risk
 - Typically one relationship lender, not many desk buyers

Senior/Mezzanine Structure

One-Stop Structure

GOLUB CAPITAL

Endnotes

Page 3: At a Glance: Golub Capital BDC, Inc. (Nasdaq: GBDC)

1. "Capital under management" is a gross measure of invested capital including leverage. As of April 1, 2025.
2. Multi-year winner of "Senior Lender of the Year, Americas" (2015, 2016, 2017, 2019, 2020, 2023) and "Lender of the Year, Americas" (2014, 2015, 2016, 2018, 2021, 2022, 2023) from Private Debt Investor ("PDI"). Based on the number of votes cast on PDI's website. Peer group consisted of firms that applied or were nominated. Winner of "Senior Lender of the Decade, Americas" (2023) and "Lender of the Decade, Americas" (2023) from PDI; these awards were published in PDI's 'The Decade' issue, released in June 2023. Selections were made based on which firms won the most PDI awards in each category since 2013. In order to use the awards and recognitions received from PDI in Golub Capital materials as well as to be identified as an award recipient on PDI's website and materials used in association with certain of its awards, Golub Capital has provided de minimis compensation to PDI.
3. As of March 31, 2025, Golub Capital has been a Top 3 U.S. Middle Market Bookrunner each year from 2008–Q1 2025 for senior secured loans of up to \$500MM for leveraged buyouts, ranked by number of deals, based on London Stock Exchange Group ("LSEG") Data & Analytics and Golub Capital internal data. Market participants submit transaction data voluntarily to LSEG Data & Analytics. As a result, the data referenced herein may not reflect all deals entered into during the time periods indicated.
4. Junior Debt consists of subordinated debt and second lien loans.
5. GAAP debt-to-equity, net is calculated as (a) total debt reduced by (i) cash, (ii) cash equivalents and foreign currencies and (iii) restricted cash held for partial repayment on notes of certain of our securitization vehicles past their reinvestment period term (if any) divided by (b) total net assets.
6. Represents dividend yield on net asset value as of March 31, 2025.

Page 12: Long-Standing Track Record of Low Default Rates

1. Payment Default rate of Golub Capital first lien middle market leveraged loans is defined as (a) the aggregate principal amount of first lien middle market leveraged loans on a cost basis that are classified as Payment Defaults during the calendar year divided by (b) the aggregate principal amount of first lien middle market leveraged loans outstanding at the end of the period. The Payment Default rate is based on a composite of Golub Capital loans and does not reflect the performance of loans held by any vehicle managed by Golub Capital or its affiliates, including financing securitizations (CLOs). The default rate data for Golub Capital Middle Market Loans started in 2004, the inception of the Golub Capital Partners Funds.
2. Default rate of the Morningstar LSTA US Leveraged Loan Index, measured by principal amount. The Morningstar LSTA US Leveraged Loan Index is a market value-weighted index designed to measure the performance of the U.S. broadly syndicated loan market based upon market weightings, spreads and interest payments.

3. We believe our Default definition most closely aligns with the Morningstar LSTA US Leveraged Loan Index definition of defaults. A loan is classified as a Default if it falls within one of the three scenarios: (a) there is an uncured payment default with respect to principal or interest (b) if the loan has been restructured with a full or partial debt-for-equity exchange, or (c) if a loan is amended such that (i) cash interest is reduced to a rate less than the applicable base rate + 1% for at least two consecutive quarters and (ii) the loan had an Internal Performance Rating of 1 or 2. Scenario C became effective January 1, 2018.
4. A loan is classified as a Payment Default if there is an uncured payment default with respect to principal or interest.
5. In March 2020, the World Health Organization declared the COVID-19 outbreak a pandemic. April 1, 2020 through March 31, 2021 represents the first full year and time period in which the Leveraged Loan Index experienced the highest default rates since the start of the COVID-19 pandemic.
6. In 2009, the annual default rates of the Leveraged Loan Index and Golub Capital Middle Market Loans reached their highest levels for the period from 2004 – Q1 2025.
7. Represents the average Loss Rate from 2004 – Q1 2025. The Loss Rate is defined as (a) the sum of all realized and unrealized losses on assets classified as Payment Defaults, net of interest and fees received over the life of each loan, divided by (b) total first lien middle market loan principal outstanding at the end of the period. Any unrealized losses included in the calculation are based on the fair value of such unrealized assets as of the date of this analysis.

Page 15: FY 2025 Q1 Earnings Review (Quarter Ended 12/31/24)

1. As a supplement to GAAP financial measures, GBDC is providing additional non-GAAP measures. See the slide titled "Endnotes – Non-GAAP Financial Measures" at the end of the earnings presentation for further description on the non-GAAP financial measures.
2. "Adjusted NII ROE", or Adjusted net investment income return on equity, is calculated as (1) (a) the adjusted net investment income per share (b) annualized by multiplying by four and (2) divided by net asset value per share as of March 31, 2025.
3. "Adjusted ROE", or Adjusted return on equity, is calculated as the annualized return on average equity. Return on equity is calculated as (a) Adjusted Net Income for the period, as defined on the slide titled "Endnotes - Non-GAAP Financial Measures" at the end of the earnings presentation and (b) divided by the daily weighted average of total net assets during the period presented.
4. Please see Internal Performance Ratings on pg. 167 of quarterly report filed on Form 10-Q.
5. GAAP debt-to-equity, net is calculated as (a) total debt reduced by (i) cash, (ii) cash equivalents and foreign currencies and (iii) restricted cash held for partial repayment on notes of certain of our securitization vehicles past their reinvestment period term (if any) divided by (b) total net assets.
6. For further details on floating rate debt, please see footnotes of slide titled "Conservative Financial Leverage With a Durable and Diverse Funding Structure".
7. The BDC peer group utilized by Golub Capital is the 15 largest publicly traded, externally managed BDCs by total balance sheet assets, excluding GBDC, as of March 31, 2025. Golub Capital has selected this group of BDCs for comparison because the Firm believes that the group represents companies that have a similar structure and size as GBDC.

Endnotes (Continued)

Page 15: FY 2025 Q1 Earnings Review (Quarter Ended 12/31/24) (Cont'd)

8. Please see page titled, "Common Stock and Distribution Information" for payment dates of quarterly and supplemental dividends.
9. Represents adjusted net investment income before accrual (reversal) for capital gain incentive fee per share for the quarter ended March 31, 2025, divided by base quarterly distribution per share declared for FY 2025 Q2.

Page 16: GBDC's Investment Portfolio is Conservatively Positioned

1. Junior Debt consists of subordinated debt and second lien loans.
2. The percentage of fixed rate and floating rate loans is calculated using total debt investments at fair value and excludes equity investments.
3. The percentage of total investments by Internal Performance Rating is calculated using total investments at fair value. Please see Internal Performance Ratings set forth in the section captioned "Portfolio Composition, Investment Activity and Yield" in our quarterly report on our Form 10-Q.
4. Based on S&P 2018 industry code. The largest industries represented as a percentage of the portfolio at fair value are labeled. All other industry segments are each below 3%.

Page 21: Gold Standard in Public BDC Fee Structures & High Degree of Shareholder Alignment

1. For ease of comparison, excludes MidCap Financial Investment Corporation which charges a management fee as a percentage of NAV (1.75% annually).
2. As of March 31, 2025. Insider ownership defined as the sum of shares held directly or indirectly by interested directors and shares held by certain Golub Capital affiliated and non-affiliated but controlled entities, and shares held by the Golub Capital Employee Grant Program Rabbi Trust, a trust that purchases shares of GBDC stock for the purpose of awarding incentive compensation to employees of Golub Capital.

Page 24: Conservative Financial Leverage With a Durable and Diverse Funding Structure

1. Interest rate for securitizations represents the weighted average spread over 3-month Secured Overnight Financing Rate ("SOFR") for the various tranches of issued notes, excluding tranches retained by the Company. For bank facilities, the interest rate represents the interest rate as stated in the applicable credit agreement.
2. In connection with the issuance of the 2028 Notes, we entered into an interest rate swap agreement for a total notional amount of \$225 million that matures on December 5, 2028. Under the agreement, GBDC receives a fixed interest rate of 7.310% and pays a floating interest rate of one-month SOFR plus 3.327%. On April 11, 2024, in connection with the previously issued 2028 Unsecured Notes we entered into an interest rate swap agreement for a total notional amount of \$225 million. Under the agreement, GBDC receives a fixed interest rate of 7.310% and pays a floating interest rate of one-month SOFR plus 2.835%. The weighted average floating interest rate of both swaps is one-month SOFR plus 3.081%.
3. In connection with the issuance of the 2029 Notes, we entered into an interest rate swap agreement for a total notional amount of \$600 million that matures on July 15, 2029. Under the agreement, GBDC receives a fixed interest rate of 6.248% and pays a floating interest rate of one-month SOFR plus 2.444%.
4. On December 3, 2024, in connection with the issuance of an additional \$150 million in aggregate

principal amount of the 2029 Unsecured Notes we entered into an interest rate swap agreement for a total notional amount of \$150 million. Under the agreement, GBDC receives a fixed interest rate of 5.881% and pays a floating interest rate of three-month SOFR plus 2.012%.

5. As of April 4, 2025, the interest rate on the JPMorgan Credit Facility ranges from 1 month SOFR + 1.525% to 1 month SOFR + 1.775%. SOFR borrowings are subject to an additional spread adjustment of 0.10%. As of March 31, 2025, the interest rate on the JPMorgan Credit Facility ranged from 1 month SOFR + 1.75% to 1 month SOFR + 1.875%.
6. Represents the weighted average cost of debt as of March 31, 2025, which is calculated as (a) the actual amount of expenses incurred on debt obligations divided by (b) the daily average of total debt obligations. Weighted average cost of debt excludes the fair-value impact of interest rate swaps. Note that change in the fair-value of the interest rate swaps are a non-cash item and will net to zero over the life of the interest rate swaps.

Page 27: Credit Rating Highlights – GBDC v. BDC Sector

1. Debt balances based upon principal amount of debt outstanding.
2. Asset coverage ratio cushion to 150%. Effective March 23, 2018, the Small Business Credit Availability Act permits a BDC to change its minimum asset coverage ratio from 200% to 150%.
3. Defined as the quotient of (a) difference between (i) total assets and (ii) total secured debt at face value, and (b) total unsecured debt at face value.
4. Represents non-accrual investments at cost as a percentage of total investment portfolio at cost.
5. Includes preferred stock as total debt.

Page 29: GBDC's Return Drivers

1. Based upon Adjusted Net Investment Income Per Share which excludes the amortization of the purchase premium and the accrual for the capital gain incentive fee required under GAAP (including the portion of such accrual that is not payable under GBDC's investment advisory agreement) from net investment income calculated in accordance with GAAP.
2. The BDC peer group utilized by Golub Capital is the 15 largest publicly traded, externally managed BDCs by total balance sheet assets, excluding GBDC, as of March 31, 2025. Golub Capital has selected this group of BDCs for comparison because the Firm believes that the group represents companies that have a similar structure and size as GBDC.

Page 33: GBDC's Value Proposition

1. "Capital under management" is a gross measure of invested capital including leverage. As of April 1, 2025.
2. Represents non-accrual investments at fair value as a percentage of total investment portfolio at fair value.
3. Represents dividend yield on net asset value as of March 31, 2025.

Important Investor Information

Golub Capital (including its various affiliates) creates and manages multiple investment funds. Two of its control affiliates, GC Advisors LLC (“GC Advisors”) and GC OPAL Advisors LLC (“GC OPAL Advisors”), and together with GC Advisors, the “Registered Advisers”) are registered investment advisers with the United States Securities and Exchange Commission (the “SEC”). A number of other investment advisers, such as GC Investment Management LLC (“GC Investment Management”), Golub Capital Liquid Credit Advisors, LLC (Management Series) and OPAL BSL LLC (Management Series) (collectively, the “Relying Advisers”) are registered in reliance upon GC OPAL Advisors’ registration. The Registered Advisers and the Relying Advisers (collectively, the “Advisers”) manage certain of Golub Capital’s affiliated funds and accounts. For a detailed description of the Advisers and each of their investment advisory fees, please see the Registered Advisers’ Form ADV Part 1 and 2A on file with the SEC. Registration is not an endorsement by the SEC, nor does it mean that a government agency approves an advisor or reviews its qualifications. Registration does not imply a certain level of skill or training, nor does it guarantee success or future performance.

Past performance does not guarantee future results. The performance results are presented for Golub Capital’s managed funds or accounts as indicated. The performance presented does not necessarily represent the return of any individual investor. An investor’s return could be significantly lower or higher than the returns shown due to differences in the timing of the investment and other factors. Gross returns shown do not reflect the deduction of management fees and/or incentive fees. Such fees, if charged, will reduce an investor’s return. Net returns reflect the deduction of all fund expenses, including performance and investment advisory fees. Each fund’s investment manager and its affiliates have the discretion to waive all or part of the management fee, incentive allocation, and other fees and expenses that they are entitled to receive, whether directly from such fund or indirectly from payments or distributions that would have otherwise been paid or distributed to the investment manager or its affiliates from holding companies, investment vehicles or other entities managed by them. Further, each fund’s investment manager and its affiliates are permitted to reduce, waive or absorb all or part of the fees or costs otherwise due by such fund or its subsidiaries. Such reductions, waivers and absorptions of fees and costs have occurred in past periods and resulted in higher returns to investors than investors would have received if full fees and costs had been charged. There is no guarantee that such reductions, waivers or absorptions will occur in the future, and such reductions, waivers and absorptions are entirely at the discretion of the investment manager. Additional information on past reductions or waivers of management fees and incentive allocations is available upon request. For more detailed financial information, please refer to the financial statements that are provided as part of the standard reporting package each quarter.

Golub Capital investments are valued at each quarter-end at their fair value consistent with ASC Topic 820 and Golub Capital’s valuation policies and procedures. The Internal Rate of Return (“IRR”) is the annualized effective compound rate of return and is based on starting capital accounts, distributions, capital calls, and ending capital accounts. The IRR performance calculation includes historical cash flows (in the case of investments, this includes the initial investment, interest and principal received, and any additional receipts or payments, and in the case of funds, this includes all capital contributions and distributions) as well as the current fair value of each portfolio loan or other investment still outstanding. The current fair value of outstanding portfolio loans or other investments that are not actively traded is determined in accordance with the valuation policies and procedures as summarized in the Registered Advisers’ Form ADV Part 2A.

The determination of the current fair value of each portfolio loan or other investment is based on

several inputs, including, among other factors, scheduled payments and comparable market yields. Because many of the loans or other investments are not actively traded, this determination of current fair value is a material factor in determining IRR performance. Actual amounts subsequently realized on an investment could differ materially from the current fair value, and accordingly the actual IRR performance could differ materially from that stated herein.

The value of investments and the income derived from investments can go down as well as up. Future returns are not guaranteed, and a loss of principal could occur. An investment in any Golub Capital affiliated fund will be subject to a variety of risks (which are described in that affiliated fund’s confidential offering memorandum), and there can be no assurance that any Golub Capital affiliated fund will meet its investment objective or that any such fund will not incur losses. Certain statements herein constitute forward-looking statements, which relate to future events, future performance or financial condition, and are subject to change for any reason. Actual results could differ materially from those implied or expressed in such forward-looking statements for any reason, and future results could differ materially from historical performance.
