- Recession-resilient industries with particular expertise in software, healthcare, specialty consumer, financial services and diversified industries
- Seek to generate consistent net returns and current income by maintaining low defaults and credit losses
- Private Debt Investor “Senior Lender of the Year, Americas” (2015, 2016, 2017, 2019, 2020, 2023, 2025)¹

1. In addition to “Senior Lender of the Year, Americas,” Golub Capital is also a multi-year winner of “Lender of the Year, Americas” (2015, 2016, 2018, 2021, 2022, 2023, 2024) from Private Debt Investor (“PDI”). Beginning in 2024, awards won were determined by committee vote. Awards won in 2023 or prior were based on number of votes cast on PDI’s website, where the peer group consisted of firms that applied or were nominated. Winner of “Senior Lender of the Decade, Americas” (2023) and “Lender of the Decade, Americas” (2023) from PDI; these awards were published in PDI’s ‘The Decade’ issue, released in June 2023. Selections were made based on which firms won the most PDI awards in each category since 2013. In order to use the awards and recognitions received from PDI in Golub Capital materials as well as to be identified as an award recipient on PDI’s website and materials used in association with certain of its awards, Golub Capital has provided de minimis compensation to PDI.

Attractive Opportunities From Existing Borrowers

As the incumbent lender to over 390 middle market companies, we believe we are well positioned to capture attractive deal flow from our existing borrowers

- We believe financings with existing borrowers generally have attractive risk-return characteristics; we believe our knowledge of the company, management team and sponsor gives us an edge in evaluating risk
- We believe that incumbencies help us to be disciplined in slow M&A environments, as our existing portfolio acts as a source of add-on opportunities that are relatively independent of new deal M&A activity

Our Capabilities Enable Us To Lead Approximately 90% of Our Deals

We believe acting as a lead lender provides distinct advantages relative to a participating role

Advantages

- Lead lenders typically control pricing, deal structure and terms
- Lead lenders generally receive higher deal fees
- Lead lenders typically have more time and more access to management during diligence prior to investing
- Lead lenders typically have better portfolio monitoring capabilities
 - Direct access to sponsor and obligor
 - First to receive financial and covenant packages
 - Can often detect and resolve performance issues prior to default
 - Control the workout process
- Lead lenders have the advantages of incumbencies
 - Typically the “Go to” lender for add-on transactions, refinancings and financing for new owners

GBDC's Value Proposition

GBDC is a premier BDC that primarily invests in first lien senior secured loans to middle market companies sponsored by private equity firms

Golub Capital Affiliation

- GBDC is managed by an affiliate of Golub Capital, an industry-leading lender to U.S. middle market companies with over **\$90 billion** in capital under management¹
- **Long-term track record** benefits from low defaults and credit losses over **multiple market cycles**
- **30+ year** track record with **\$220B+** in loans originated

High-Quality Portfolio

- **\$8.3B** investment portfolio focused on **first lien, senior secured loans** to recession resistant U.S. middle market companies backed by experienced private equity firms
- Diversified portfolio with **420** unique portfolio companies and average investment size of **0.2%**
- **1.4%** non-accrual rate, well below BDC sector average²

Credit Track Record

- **Long-term track record** of generating **low** net investment losses with lower relative volatility
- **(0.03%)** realized and unrealized **net loss rate** since inception

Structural Advantages

- Industry-leading investment advisory fee structure and prudent operating expense management
- Low-cost, diverse and flexible debt financing supported by investment grade ratings profile (**Baa2/BBB-/BBB**)
- High degree of shareholder alignment; i) strong insider ownership of GBDC shares (**~8% of shares outstanding**), ii) \$300 million unsecured revolver **provided by GC Advisors** at below market interest rates, iii) \$150 million share repurchase program, and iv) \$250 million at-the-market offering program

Attractive Historical Returns

- **9.4%** annualized IRR on NAV since 2010 IPO
- Since its IPO in 2010, GBDC has delivered significant outperformance relative to BDC peers and leveraged loan and high yield bond indices

Higher First Lien Composition and Greater Portfolio Diversity

Portfolio Composition by Seniority¹

GBDC's portfolio is more conservatively positioned than the BDC peer average

Diversification by Obligor

GBDC's portfolio is almost twice as diversified by obligor as the BDC peer average

1. Based on fair value of investments as of March 31, 2026.

2. Calculated based on each BDC's total investment portfolio size and average portfolio company investment size at fair value as presented in SEC filings.

3. The BDC peer group utilized by Golub Capital is the 15 largest publicly traded, externally managed BDCs by total balance sheet assets, excluding GBDC, as of March 31, 2026. Golub Capital has selected this group of BDCs for comparison because we believe that the group represents companies that have a similar structure and size as GBDC.

GBDC's Portfolio is Well Positioned on Key Credit Metrics

Current Non-Accrual Rate v. BDC Peers

GBDC's portfolio is less exposed to portfolio companies currently unable to service their debt¹

■ GBDC
■ BDC Peer Average

Current <90% Debt Investments v. BDC Peers²

GBDC's portfolio is less exposed to debt investments with a fair value below 90% and other non-first lien investments

■ Debt Investments (senior and junior debt) w/ Fair Value Below 90%
■ Equity Investments & Other
■ Other Junior Debt Investments
■ Joint Ventures & Senior Loan Funds

1. A loan can be left on accrual status while the Company is pursuing repayment of the loan. Management reviews all loans that become 90 days or more past due on principal and interest, or when there is reasonable doubt that principal or interest will be collected, for possible placement on non-accrual status.

2. Based on fair value as a percentage of principal value as of March 31, 2026.

Note: As of March 31, 2026. The BDC peer group utilized by Golub Capital is the 15 largest publicly traded, externally managed BDCs by total balance sheet assets, excluding GBDC, as of March 31, 2026. GBDC's Long Track Record of Low Credit Losses

Since its 2010 IPO, GBDC has delivered a (0.03%), or 3bps, annualized loss rate on the amount of its investments (% of portfolio at cost), whereas the average peer BDC has delivered a (1.28%) annualized loss rate¹

Realized & Unrealized Net Gain/(Loss) Rate Since GBDC Inception¹

Annualized, % of portfolio at cost

Rigorous and Disciplined Approach to Underwriting and Credit Selection

Extensive credit monitoring infrastructure allows early detection and proactive management of borrower performance issues

Origination, Underwriting, Portfolio Monitoring and Workouts teams all collaborate but are independent of one another

Once a credit is on the Watchlist, Golub Capital will explore all alternatives and will pursue the course of action that it believes will result in the highest recovery

1. Represents the geometric average of quarterly gain/(loss) rates since inception (December 31, 2009), where quarterly gain/(loss) rate represents (i) the sum of unrealized appreciation/(depreciation) and realized gain/(loss) on investments excluding the impact of foreign currency translation, divided by (ii) the investment portfolio value at cost at the end of the respective measurement period. For GBDC, excludes the impact of unrealized appreciation/(depreciation) on investments from the Golub Capital Investment Corporation ("GCIC") purchase premium and the Golub Capital BDC 3, Inc. ("GBDC 3") purchase premium.

GBDC's Structural Advantages Contribute to ROE Outperformance

1.

Attractive Asset Yields w/ 12% More in 1st Lien Debt

- 1st lien focused investment portfolio, 99% floating rate portfolio, sponsor-backed portfolio companies
- Lower non-accrual balances results in higher earning asset balances
- Lower reliance on PIK interest income and non-recurring dividend and fee income

2.

Prudent Use of Leverage and Funding Cost Advantages

- 0.85x – 1.25x target debt-to-equity
- Diversified funding sources with one of the lowest overall borrowing costs amongst BDC Peers²
- Differentiated investment grade ratings profile supports access to unsecured debt markets (Baa2 (Stable) / BBB- (Stable) / BBB (Stable))

3.

Lower Investment Advisory Fees

- Gold standard in public BDC fee structures

4.

Active Operating Expense Management

- Leverage scale benefits across the Golub Capital BDC platform to lower operating expenses
- Seek to minimize excise tax

01

The Sponsor Advantage

We believe lending to sponsor-backed companies helps us select better credits, maintain better portfolio performance and achieve better problem resolution than lending to non-sponsored companies

Credit Selection

- Sponsors specialize in creating equity value and implementing credit-enhancing strategies
- Sponsors filter for quality and tend to be highly selective
- Sponsor-backed deals have lower historical default rates*

Portfolio Performance

- Aligned, motivated ownership
- Managerial and operational resources help avoid downside scenarios

Problem Resolution

- Access to operating partners with turnaround expertise
- Capacity to change management in underperforming companies
- Ability to invest additional equity to overcome temporary setbacks

* Based on Golub Capital internal analysis of data from PitchBook's Leveraged Commentary and Data (PitchBook LCD). For the period from January 1, 2004 through March 31, 2026, the average annual default rate of broadly syndicated loans tracked in the PitchBook LCD database was 1.7% for loans issued to sponsor-backed companies and 2.4% for loans issued to non-sponsored companies. The default rate is calculated on a trailing twelve-month basis, based on principal outstanding. Golub Capital makes no representations or warranties about the accuracy or appropriateness of third-party data sources used in this analysis. All third-party data sources are the property of their respective owners and such owners have not endorsed the contents of this presentation. There is no guarantee that future investments will maintain historical default rates.

Leading Provider of One-Stop Loans and Buy-and-Hold Solutions

One-stop loans and buy-and-hold solutions provide a win-win for investors and sponsors

Win-Win of the One-Stop

- For investors
 - First lien, first-out senior secured debt
 - Yield premium to traditional senior debt¹
 - Better protection than junior debt
- For sponsors
 - Greater ease of execution
 - One class of debt; no intercreditor complexities
 - Lower cost of debt over time

Win-Win of the Buy-and-Hold Solution

- For investors
 - Alignment of interests with manager
 - Advantages of leading transactions²
 - Well positioned for repeat business³
- For sponsors
 - Greater certainty of closing
 - No flex; no syndication risk
 - Typically one relationship lender, not many desk buyers

Period beginning June 30, 2010 and ending March 31, 2026. GBDC made its initial public offering on April 15, 2010. GBDC's 1-, 5- and 10-Year IRRs (net of fees and expenses) are 5.6%, 9.6% and 8.6%, respectively.
6. Average GAAP debt-to-equity, net is calculated as (a) total debt reduced by (i) cash, (ii) cash equivalents and foreign currencies and (iii) restricted cash held for partial repayment on notes of certain of our securitization vehicles past their reinvestment period term (if any) divided by (b) total net assets.

Page 11: Long-Standing Track Record of Low Default Rates

1. Dual Track Default Rate ("DTDR") of the Morningstar LSTA US Leveraged Loan Index, measured by issuer count. The DTDR includes liability management transactions considered distressed exchanges or defaults by S&P Global Ratings for loans that are constituents of the Morningstar LSTA US Leveraged Loan Index. DTDR is defined as (a) number of defaults plus (b) distressed exchanges divided by (c) total issuers on a trailing 12-month basis. The Morningstar LSTA US Leveraged Loan Index is a market value-weighted index designed to measure the performance of the U.S. broadly syndicated loan market based upon market weightings, spreads and interest payments.
2. Default rate of Golub Capital first lien middle market leveraged loans is defined as (a) the number by issuer count of first lien middle market leveraged loans that are classified as Defaults during the specified period divided by (b) the total number by issuer count of first lien middle market leveraged loans outstanding at the end of the period.
3. Default rate of the Morningstar LSTA US Leveraged Loan Index, measured by principal amount. The

Morningstar LSTA US Leveraged Loan Index is a market value-weighted index designed to measure the performance of the U.S. broadly syndicated loan market based upon market weightings, spreads and interest payments.

4. We believe our Default definition most closely aligns with the Morningstar LSTA US Leveraged Loan Index definition of defaults. A loan is classified as a Default if it falls within one of the three scenarios: (a) there is an uncured payment default with respect to principal or interest (b) if the loan has been restructured with a full or partial debt-for-equity exchange, or (c) if a loan is amended such that (i) cash interest is reduced to a rate less than the applicable base rate + 1% for at least two consecutive quarters and (ii) the loan had an Internal Performance Rating of 1 or 2. Scenario C described above became effective January 1, 2018.
5. A loan is classified as a Payment Default if there is an uncured payment default with respect to principal or interest.

1. Interest rate for securitizations represents the weighted average spread over the applicable Secured Overnight Financing Rate ("SOFR") for the various tranches of issued notes, excluding tranches retained by the Company. For bank facilities, the interest rate represents the interest rate as stated in the applicable credit agreement.
2. In connection with the issuance of the 2028 Notes, we entered into an interest rate swap agreement for a total notional amount of \$225 million that matures on December 5, 2028. Under the agreement, GBDC receives a fixed interest rate of 7.310% and pays a floating interest rate of one-month SOFR plus 3.327%. On April 10, 2024, in connection with the previously issued 2028 Unsecured Notes, we entered into an interest rate swap agreement for a total notional amount of \$225 million. Under the agreement, GBDC receives a fixed interest rate of 7.310% and pays a floating interest rate of one-month SOFR plus 2.835%. The weighted average floating interest rate of both swaps is one-month SOFR plus 3.081%. On September 19, 2025, in connection with the issuance of an additional \$250 million in aggregate principal amount of the 2028 Unsecured Notes, we entered into an interest rate swap agreement for a total notional amount of \$250 million. Under the agreement, GBDC receives a fixed interest rate of 5.050% and pays a floating interest rate of daily SOFR plus 1.723%. The interest rate shown for the 2028 Notes represents the weighted average spread over one-month and daily SOFR, respectively, for portions of the 2028 Notes as described above.
3. In connection with the issuance of the 2029 Notes, we entered into an interest rate swap agreement for a total notional amount of \$600 million that matures on July 15, 2029. Under the agreement, GBDC receives a fixed interest rate of 6.248% and pays a floating interest rate of one-month SOFR plus 2.444%. On November 25, 2024, in connection with the issuance of an additional \$150 million in aggregate principal amount of the 2029 Unsecured Notes, we entered into an interest rate swap agreement for a total notional amount of \$150 million. Under the agreement, GBDC receives a fixed interest rate of 5.881% and pays a floating interest rate of three-month SOFR plus 2.012%. The interest rate shown for the 2029 Notes represents the weighted average spread over one-month and three-month SOFR, respectively, for portions of the 2029 Notes as described above.
4. The interest rate on the JPMorgan Credit Facility ranged from 1 month SOFR + 1.525% to 1 month SOFR + 1.775%. SOFR borrowings are subject to an additional spread adjustment of 0.10%.
5. Represents the weighted average cost of debt, which is calculated as (a) the actual amount of expenses incurred on debt obligations divided by (b) the daily average of total debt obligations. Weighted average cost of debt excludes the fair-value impact of interest rate swaps. Note that change in the fair-value of the interest rate swaps are a non-cash item and will net to zero over the life of the interest rate swaps.

1. Under asset acquisition accounting, where the consideration paid to GCIC's and GBDC 3's stockholders, as applicable, exceeded the relative fair values of the assets acquired, the premium paid by GBDC is allocated to the cost of GCIC and GBDC 3 assets acquired by GBDC pro-rata based on their relative fair value. Immediately following each of the mergers, GBDC records its assets at fair value and, as a result, the purchase premium allocated to the cost basis of the assets of GCIC and GBDC 3 acquired in the respective mergers, as applicable, was immediately recognized as unrealized depreciation. The unrealized depreciation resulting from asset acquisition accounting is shown as a reduction in the Pro Forma GBDC NAV Post-Merger and the Pro Forma GBDC NAV Per Share Post-Merger above.

1. Based upon Adjusted Net Investment Income Per Share which excludes the amortization of the purchase premium and the accrual for the capital gain incentive fee required under GAAP (including the portion of such accrual that is not payable under GBDC's investment advisory agreement) from net investment income calculated in accordance with GAAP.
2. The BDC peer group utilized by Golub Capital is the 15 largest publicly traded, externally managed BDCs by total balance sheet assets, excluding GBDC, as of March 31, 2026. Golub Capital has selected this group of BDCs for comparison because we believe that the group represents companies that have a similar structure and size as GBDC.

Important Investor Information

Golub Capital (including its various affiliates) creates and manages multiple investment funds. Two of its control affiliates, GC Advisors LLC (“GC Advisors”) and GC OPAL Advisors LLC (“GC OPAL Advisors”, and together with GC Advisors, the “Registered Advisers”) are registered investment advisers with the United States Securities and Exchange Commission (the “SEC”). A number of investment advisers, such as GC Investment Management LLC (“GC Investment Management”), Golub Capital Liquid Credit Advisors, LLC (Management Series), Golub Capital Liquid Credit Advisors, LLC (Management Series Sequoia), and OPAL BSL LLC (Management Series) (collectively, the “Relying Advisers”) are registered in reliance upon GC OPAL Advisors’ registration. The Registered Advisers and the Relying Advisers (collectively, the “Advisers”) manage certain of Golub Capital’s affiliated funds and accounts. For a detailed description of the Advisers and each of their investment advisory fees, please see the Registered Advisers’ Form ADV Part 1 and 2A on file with the SEC. Registration is not an endorsement by the SEC, nor does it mean that a government agency approves an advisor or reviews its qualifications. Registration does not imply a certain level of skill or training, nor does it guarantee success or future performance.

Past performance does not guarantee future results. The performance results are presented for Golub Capital’s managed funds or accounts as indicated. The performance presented does not necessarily represent the return of any individual investor. An investor’s return could be significantly lower or higher than the returns shown due to differences in the timing of the investment and other factors. Gross returns shown do not reflect the deduction of management fees and/or incentive fees. Such fees, if charged, will reduce an investor’s return. Net returns reflect the deduction of all fund expenses, including performance and investment advisory fees. Each fund’s investment manager and its affiliates have the discretion to waive all or part of the management fee, incentive allocation, and other fees and expenses that they are entitled to receive, whether directly from such fund or indirectly from payments or distributions that would have otherwise been paid or distributed to the investment manager or its affiliates from holding companies, investment vehicles or other entities managed by them. Further, each fund’s investment manager and its affiliates are permitted to reduce, waive or absorb all or part of the fees or costs otherwise due by such fund or its subsidiaries. Such reductions, waivers and absorptions of fees and costs have occurred in past periods and resulted in higher returns to investors than investors would have received if full fees and costs had been charged. There is no guarantee that such reductions, waivers or absorptions will occur in the future, and such reductions, waivers and absorptions are entirely at the discretion of the investment manager. Additional information on past reductions or waivers of management fees and incentive allocations is available upon request. For more detailed financial information, please refer to the financial statements that are provided as part of the standard reporting package each quarter.

Golub Capital investments are generally valued on a monthly basis at their fair value consistent with ASC Topic 820 and Golub Capital’s valuation policies and procedures. The Internal Rate of Return (“IRR”) is the annualized effective compound rate of return and is based on starting capital accounts, distributions, capital calls, and ending capital accounts. The IRR performance calculation includes historical cash flows (in the case of investments, this includes the initial investment, interest and principal received, and any additional receipts or payments, and in the case of funds, this includes all capital contributions and distributions) as well as the current fair value of each portfolio loan or other investment still outstanding. The current fair value of outstanding portfolio loans or other investments that are not actively traded is determined in accordance with the valuation policies and procedures as summarized in the Registered Advisers’ Form ADV Part 2A.

The determination of the current fair value of each portfolio loan or other investment is based on

several inputs, including, among other factors, scheduled payments and comparable market yields. Because many of the loans or other investments are not actively traded, this determination of current fair value is a material factor in determining IRR performance. Actual amounts subsequently realized on an investment could differ materially from the current fair value, and accordingly the actual IRR performance could differ materially from that stated herein.

The value of investments and the income derived from investments can go down as well as up. Future returns are not guaranteed, and a loss of principal could occur. An investment in any Golub Capital affiliated fund will be subject to a variety of risks (which are described in that affiliated fund’s confidential offering memorandum), and there can be no assurance that any Golub Capital affiliated fund will meet its investment objective or that any such fund will not incur losses. Certain statements herein constitute forward-looking statements, which relate to future events, future performance or financial condition, and are subject to change for any reason. Actual results could differ materially from those implied or expressed in such forward-looking statements for any reason, and future results could differ materially from historical performance.

Golub Capital may appoint placement agents in connection with the offering of the securities referenced herein (the respective “Fund”). Generally, placement agents receive cash compensation from Golub Capital, the Fund’s sponsor, which is often based on a percentage of the commitments from investors introduced to the Fund by the placement agent. The engagement of a placement agent creates a conflict of interest between the placement agent and the investor since the placement agent has an incentive to recommend the Fund and endorse Golub Capital, rather than investment funds or companies of other sponsors with which it does not have a placement agent arrangement, and because the placement agent earns compensation from Golub Capital when you invest in the Fund. The statements and opinions made by the placement agents describe their experience with Golub Capital and may not be representative of the experience of others.

The placement agents may also provide (or expect to provide) other services to Golub Capital and the Fund, and their respective affiliates, such as investment banking, consulting or advisory services. The placement agents and their personnel also may invest in funds, portfolio companies and/or companies that have interests different from or adverse to Golub Capital or the Fund, or any of their respective affiliates’ clients and/or portfolio companies. These other relationships and the fees paid to the placement agents in connection with these services may result in material conflicts of interest on the part of these placement agents.
